

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ وَبِهِ نَسْتَعِينُ إِلَهُ خَيْرٌ نَاصِرٌ وَمَعِنَ الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ وَصَلَّى اللَّهُ عَلَى مُحَمَّدٍ وَعَلَى آلِهِمَا الطَّيِّبِينَ الطَّاهِرِينَ وَلَعْنَةُ اللَّهِ عَلَى أَعْدَائِهِمْ أَجْمَعِينَ أَبَدَ الْأَبَدِينَ

In the name of Allah the Compassionate and the Merciful. We asking help to Allah: verily He is the best Helper. Praise Allāh, the Lord of the worlds. May Allah pray on Mohammad, Eali and their family the virtuous, the pures and curse of Allah be with their enemies forever and ever.

قَالِقُ الْإِصْبَاحِ وَجَعَلَ اللَّيْلَ سَكَنًا وَالشَّمْسُ وَالْقَمَرُ حُسْبَانًا

Cleaver of the daybreak. He has appointed the night for resting, and the sun and the moon for reckoning. Such is the measuring of the All-Mighty, the All-Knowing.

The mean solar time of the calendars of Hayāt-aēlā Foundation is Mean Time KMT, Kaēbah - Makkah

THE ANNUAL LETTER OF THE

Religious Ephemeride

**Lunar and solar islamic hijri calendars, Moḥammad Nativity⁹ ,
Jesus Nativity⁷ , Eskandarian calendar, Year counting from the
creation of Ādam⁷ and the Era of Mawlā Šāḥeb al-amr⁷ .**

The 23rd night of Ramaḍān	Laylat al-Qadr (night of vigil, adoration, knowledge and welāyat) Beginning of the new year for the followers of the Truth

لا إله إلا الله محمد رسول الله عليّ وليّ الله وإنه وأولاده المعصومين حجج الله وأن محمد بن الحسن هو القائم بأمر الله

Lā elāha ellal-lah, Moḥammad rasōlol-lah, Aliyyan waliol-lāh, wa ennaho wa aōlādahol-maēasōmīn ḥojjaol-lah, wa anna Moḥammad ebnaḥ-Ḥasan, howal-qāāemo be amereḥ-lah

*The twenty-third night of
the blessed month of Ramaḍān*

Laylat al-Qadr

Beginning of the New Year for the followers of The Truth
May Allāh make us honest and worthy of the
presence of Ḥādrat Qodsiyyeh Waḥḥollāh

اللهم يا مقلب القلوب والأبصار ثبت قلوبنا وأبصارنا على دينك اللهم يا مصرف القلوب صرف

قلوبنا إلى طاعتك ونور قلوبنا وأبصارنا بالقرآن وما يحول الأحوال حول حالتنا إلى أحسن الحال

Allāhomma yā moqallebal-qolōbe wal-ābsār ṣabbet qolōbanā wa absāranā
ēalā dīnek. Allāhomma yā mošarrefal-qolōb, šarref qolōbanā alā tāēatek
wa nawwer ābsāranā bel-qorān, wa yā moḥawwela-l-ḥawle wal-aḥwāl
ḥawwel ḥālanā elā aḥsanel-ḥāl

*O Allāh, the one who changing the hearts and the discernments,
keep our hearts and discernments for Your religion.*

*O Allāh, the one who making the hearts attentive, make our
hearts attentive to Your obedience
and our discernment illumined by the Qur'an.*

*O Allāh, the one who changes situations and circumstances,
change our circumstance to the best of circumstances.*

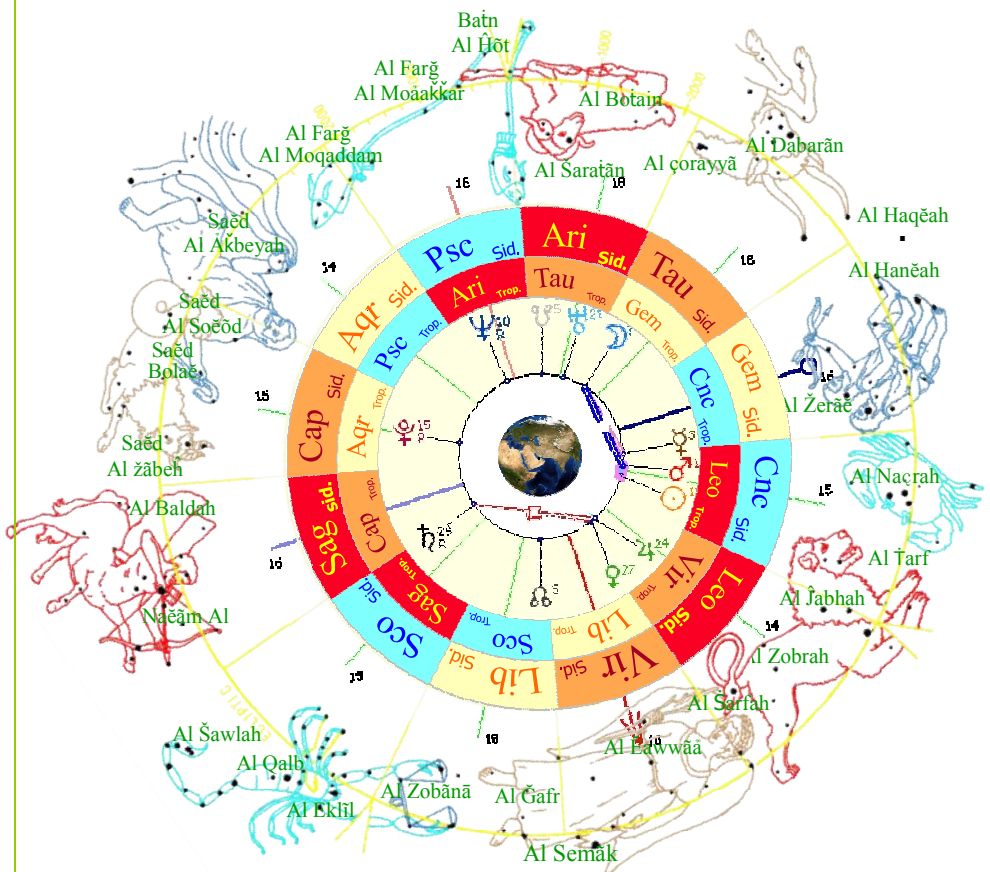

وَجَّهْتُ وَجْهِي لِلَّذِي فَطَرَ السَّمَوَاتِ وَالْأَرْضَ * عَالِمِ الْغَيْبِ وَالشَّهَادَةِ * عَلَى مِلَّةِ إِبْرَاهِيمَ
وَدِينِ مُحَمَّدٍ * وَوَلَايَةِ عَلِيٍّ وَ مِنْهَاجِ أَمِيرِ الْمُؤْمِنِينَ وَ هُدَى عَلِيِّ بْنِ أَبِي طَالِبٍ * وَالْإِيْتِمَامِ
بِالْأَيْمَةِ مِنْ آلِ مُحَمَّدٍ (الحسن و الحسين والسجاد والباقر والصادق والكاظم والرضا والجواد
والهادي والعسكري والمهدي) صَلَوَاتُكَ عَلَيْهِمْ * حَنِيفًا مُسْلِمًا * وَمَا أَنَا مِنَ الْمُشْرِكِينَ
* إِنَّ صَلَاتِي وَنُسُكِي وَمَحْيَايَ وَمَمَاتِي لِلَّهِ رَبِّ الْعَالَمِينَ * لَا شَرِيكَ لَهُ وَبِذَلِكَ أُمِرْتُ وَأَنَا
مِنَ الْمُسْلِمِينَ * لَا إِلَهَ غَيْرُكَ وَلَا مَعْبُودَ سِوَاكَ * اَللّٰهُمَّ اجْعَلْنِي مِنَ الْمُسْلِمِينَ

Waĵjahto wajhī lellażī fataras-samawāte wa-l-ard, ěālemel-ġaybe
waš-šahādah, ěalā mellate Ebrāhīma wa dīne Moĥammad, wa
welāyate Ėaliyyen wa menĥāĵe Amīre-l-moāmenīn, wa hodā Ėaliyye
ebne Abī Tāleb, wa-l-ītmāme be-l-aāemate men āle Moĥammad (al-
Ĥasan, al-Ĥosayn, al-Saĵġād, al-Bāqer, al-Sādeq, al-kāzem, al-Redā,
al-Ĵawād, al-Hādi, al-Ėaskari wal-Mahdi) šalawātoka ěalayhem.
Ĥanīfan, mosleman, wa mā anā mena-l-mošrekīn. Enna šalātī wa
nosokī wa maĥyāya wa mamātī lellahe rabbe-l-ěālamīn, lā šarīka lah
wa bežaleka omerto wa anā mena-l-moslemīn, lā elāha ġairoka wa
lā maĕbōda sewāk. Allāhomma-ĵ-ěalnī mena-l mosallemīm.

*Verily, I have turned my face towards Him Who has created the
heavens and the earth, the All-Knower of the unseen and the seen.
according to the Ibrahim tradition and the religion of Muhammad,
the Welayat of Ėalī, the commander of the believers, and the
guidance of Ėalī ibn Abi Taleb, taking as Ėmāms, the Ėmāms of
Muhammad's Family (al-Ĥasan, al-Ĥosayn, al-Saĵġād, al-Bāqer, al-
Sādeq, al-Redā, al-Ĵawād, al-Hādi, al-Ėaskari wal-Mahdi). I am
monotheistic and I am not polytheistic. Verily, my prayer, my ritual,
my life and my death are for Allāh, the Lord of the Worlds: for so I
am commanded and I am Muslim. O my Lord put me amongst the
people who are muslim.*

Laylat al-Qadr astrological chart at the beginning of the new year for the followers of the Truth

The partial Solar eclipse 29th of Ži-Qaėdah 1436

*Invisible in Makkah, Middle East and Iran
In those areas there is no signs prayer.*

Date of the eclipse (according Mean Time KMT, Kaėbah – Makkah) :

Sunday 29th Ži-Qaėdah 1436 = 22nd Virgo = 22nd Šahriwar 1394 = 13th September 2015

Location: From south of African continent (south of Angola and Zambia to Namibia, Botswana, Zimbabwe, Mozambique, Madagascar, South Africa), to South pole.

Eclipse path:

The 13th September eclipse is Member 54 of 73 of saros 125.

The eclipse will start from South of Africa at 7:41:40 KMT and will continue its path, crossing the Ocean, will end in the South Pole at 12:06:25 KMT. The maximum eclipse will occur at 9:55:19 KMT with a magnitude of 0.7875.

About the map of the eclipse path:

The area determined by a pink line on the left side of the map, shows the area where the eclipse will begin.

The area determined by a pink line on the right side of the map, shows the areas where the eclipse will end.

In the area determined by a pink line on the left side of the map, the solar eclipse will begin at the end of the night.

The area determined by a pink line, on the extreme left side of the map without blue line, designates the zone where the eclipse will be visible at sunrise. In this area, the eclipse will begin from the mid eclipse.

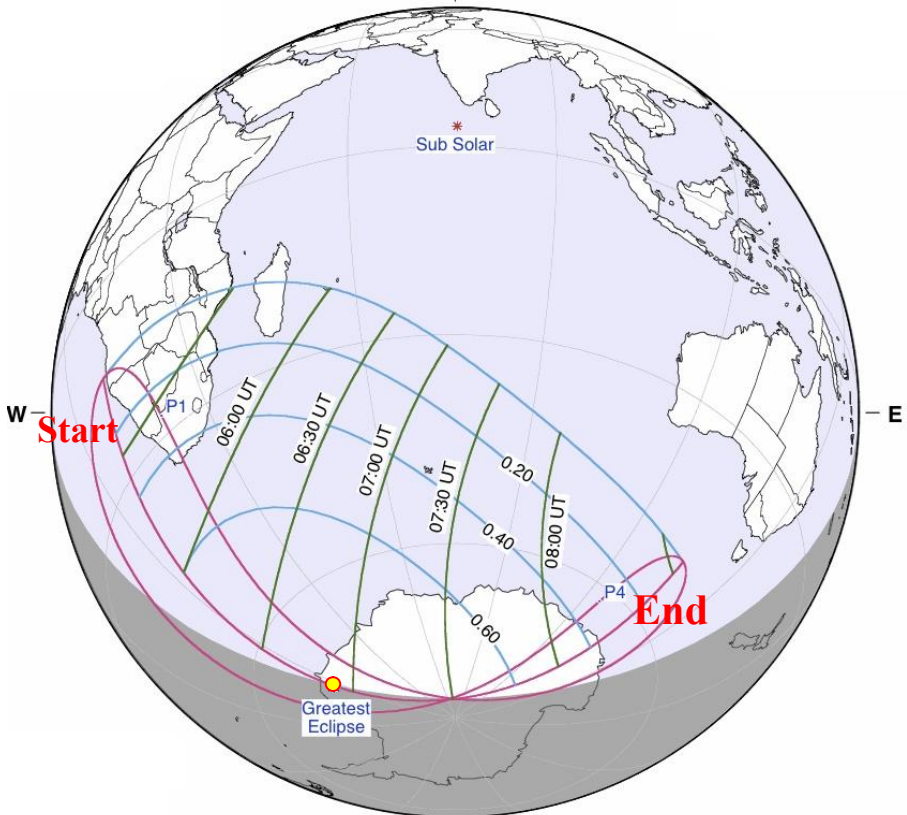

The area determined by a pink line on the left side of the map with blue lines, designates the mid eclipse and the phases of the eclipse after sunrise.

In the area determined by a pink line on the right side of the map, the night will begin before the end of the eclipse, so, the end phases of the eclipse will not be observed.

The area determined by a pink line on the extreme right side of the map with blue lines, designates the area of the mid eclipse and the phases after it, that will happen before sunset.

The area determined by a pink line on the right side of the map with blue lines, designates the mid eclipse and the phases after it, which will happen after sunset. In this area, it will be only in the late afternoon, before sunset, that the beginning of the eclipse will be visible. In this area, nor mid eclipse nor the end of the eclipse will not be observed.

Outside of this zone, in areas determined by blue lines, all the phases of the eclipse will be observed

Perform signs prayer

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

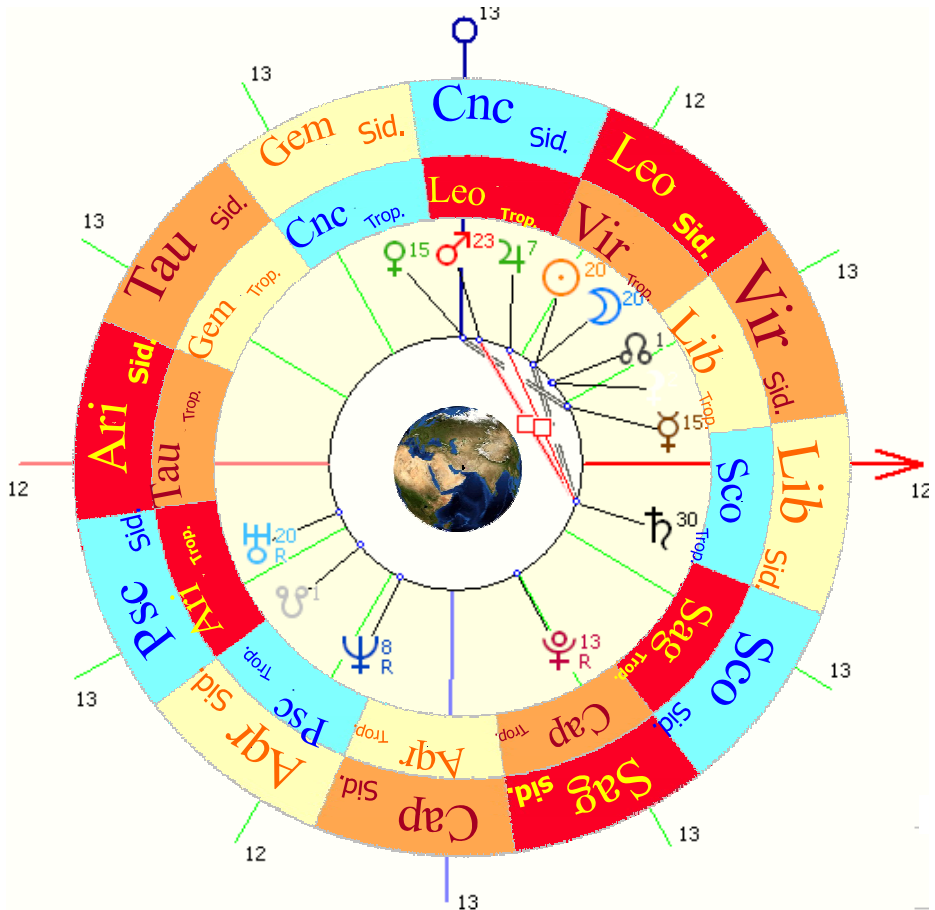

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Characteristics of Solar Eclipse in the Muslims countries (in local time: LMT)

Cities names	The beginning of eclipse	Sun's altitude	Maximum eclipse	Sun's altitude	Sun's azimuth	End of Eclipse	Sun's altitude	Magnitude	Maximum eclipse
Cape Town South Africa	06:52 at Sunset	00	07:43	10	078	08:49	23	0.303	30.3%
Pretoria South Africa	06:43	07	07:34	19	076	08:31	31	0.255	14.5%

Penumbral, partial and total Eclipse of the Moon on the 14th Ži-Ĥejĵah 1436.

Date of the eclipse:

Monday 14th Ži-Ĥejĵah 1436= 6th Mehr = 6th Libra 1394 = 28th September 2015.

Location : This eclipse will be visible from the middle of Asia (West of India, Afghanistan, Pakistan, the middle of Kazakhstan and Russia) to Eastern Asia (including Middle East, Hejaz and Iran), Europe, Africa, Atlantic Ocean, North and South America.

In those areas the signs prayer is obligatory.

The 28th September eclipse is member 28 of 81 of Saros 137.

Umbral magnitude: 1.2764.

Penumbral magnitude: 2.2296

The legend of the codes of diagram:

P1: first point of exterior contact times with the penumbra

P2: The penumbra covers two-thirds of the moon's surface= the beginning of the penumbral eclipse

U1: first point of external point of contact with the shadow= the beginning of the partial eclipse

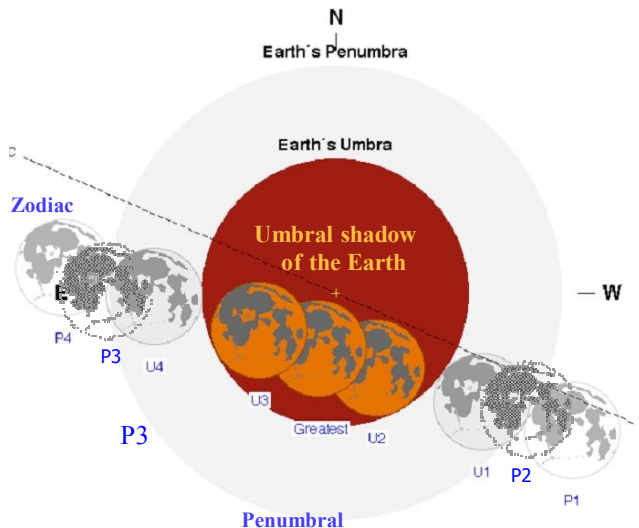

U2: the beginning of the total eclipse

U3: the end of the total eclipse

U4: the end of the partial eclipse

P3: the last point where penumbra covers two- thirds of the moon's surface= the end of the penumbral eclipse

P4: last point of exterior contact times of the Moon's penumbral shadow.

The hours of the penumbral, total and partial eclipse:

In the Šariĕa, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 03:12 KMT (P1) but it's only around 03:49 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the southern half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The partial eclipse will begin at 04:07KMT (U1) and will finish at 07:27 KMT (U4). The total eclipse (U2) will begin at 05:11 KMT and will end at 06:23 KMT (U3). The total eclipse will reach its maximum at 05:48 KMT and until approximately 07:45 KMT, two-thirds of the moon are in darkness (P3).

After this point, the color change of the Moon will no longer be visible So, according the Šariĕa, it will be the end of the eclipse and the end of the obligation of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 08:22 KMT (P4).

The areas of visibility of the penumbral, total and partial eclipses:

In the following map; the grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

The center of the eclipse will happen in the North of Brazil. About the areas of the penumbral lunar eclipse located between P1 and P4:

- 1) In Asia and Africa: the eclipse will occur in the setting Moon.
- 2) In western America, the eclipse will occur in the rising Moon.

Observation areas of all the phases of the penumbral, partial and total eclipses:

In grey-shaded areas located between P3, in Africa and P2, in America, all the phases of the eclipse will be observed after moonrise and the eclipse will end before moonset.

In those areas, the eclipse will be the longer.

In grey-shaded areas located between U1, in Asia and U4 in America, the partial eclipse will begin after moonrise and will end before moonset.

In those areas, the partial eclipse will be the longer.

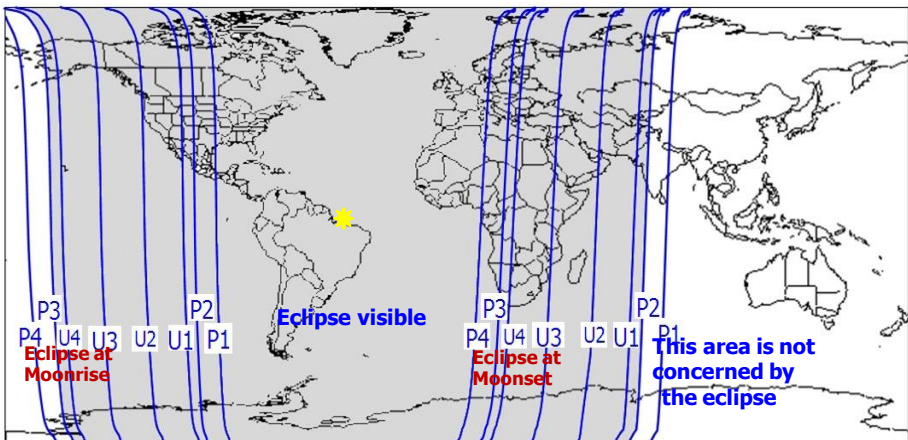

In grey-shaded located between U3, in Africa and U2, in America, the total eclipse will begin after moonrise and will end before moonset.

In this area the total eclipse will be the longer.

Observation areas of some phases of the penumbral, partial and total eclipse:

In Asia and Africa:

In areas located between P3 and U4, the end of the penumbral eclipse of the Moon will happen after moonset, therefore the eclipse in those areas will not be visible. Similarly, for the end of the partial eclipse in the areas between U3 and U4. Between U2 and U3, for the total eclipse, between U1 and U2, for the partial eclipse, between U1 and P2 for penumbral eclipse, the observation of the eclipse will not be possible in areas where the eclipse will occur after moonset but in areas where the eclipse will coincide with Moonset, the eclipse will be visible.

In North America:

In areas located between P3 and U4, the end of the penumbral eclipse will occur before moonrise, therefore the eclipse will not be visible.

Similarly, in the areas between U3 and U4 for the end of the partial eclipse. Between U2 and U3, for the total eclipse, between U1 and U2, for the beginning of the partial eclipse.

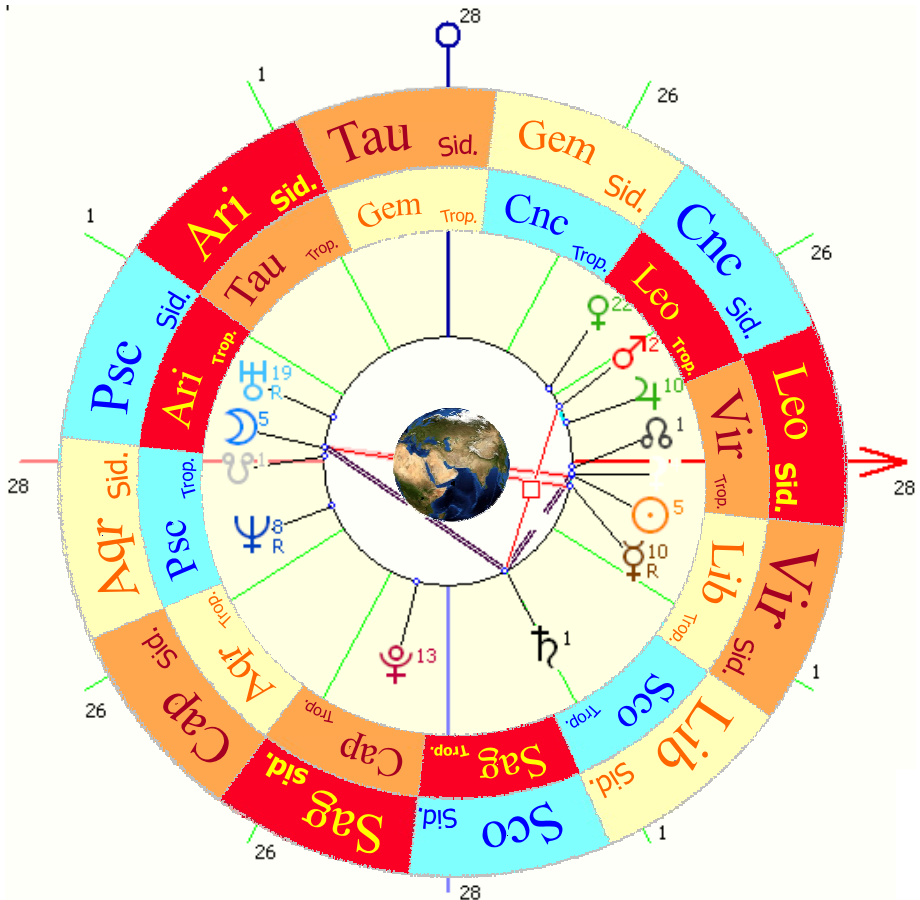

And between U1 and P2, for the beginning of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur after moonrise but areas where the eclipse will coincide with moonrise, the eclipse will be visible.

On the map, the white areas, between P1 and P2, in Asia and the areas between P4 and P3, in western Americas, the penumbral eclipse only will occur but it will not be perceptible because the penumbra will cover less than two-thirds of the full Moon and the color change of the Moon will not perceptible.

In those areas, according to the criteria of the Šariča, there is no eclipse and no prayer.

Astrological chart of the mid eclipse

The Lunar eclipse will occur at the Moon's descending node
in the five degrees of sidereal Pisces and tropical Aries

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In this case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case.

The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the obligation of the signs prayer .

Eclipse Partial duration: 3 hours and 20 minutes

Eclipse total duration: 1 hour and 12 minutes

Penumbral, Partial and Total lunar eclipse duration: 3 hours and 56 minutes

Month of Šafar

Following of **the mourning for Ēmām Ĥosayn 7**
and days of **grief and captivity of the House Hold of the Prophet :**
Šalla l-lāho ėalayka yā mawlā yā abā Moĥammad al-Ĥassan al-Moĵtabā
The seventh day of the month of Šafar
the martyrdom of Ĥadrat Ēmām Ĥasan Moĵtabā 7

View of the Sanctuary of the martyrs of Šeffin battle

The eighteenth day of Šafar is the commemoration of the martyrs of the Šeffin battle. Ĥadrat Mawlā himself made the funeral prayer and buried them himself (Ēamār, Oweys, ĵazīmeh, Abol Heyĉam and ...). This place is also the qadamgah and mošallā of Ĥadrat Mawlā, Ĥadrat Ēmām Ĥasan Moĵtabā and Ĥadrat Ēmām Ĥosayn. The importance of this place is so remarkable that it is worthy recommended to go there for ziyārat and spending a few days near the martyrs. Allāh grants this success to all believers.

A shrine has been built in Ar-Raqqah in Syria. This shrine is the result the efforts of Ayatollāh Fehrī. But recently it has been destroyed by the Nāsebīs

To get more details about those topics refer to the divin calendar of the month of Šafar in welāyat and barāāat times and Ĥayāt-aēlā Media in website of Ĥayāt-aēlā Foundation:

Date	Schedule of the assemblies
The 18th day of Šafar	Martyrdom of Oways al-Qaranî 7 alongside Mawlā 7 (Commemoration of the Martyrs of Šeffayn)
The 20th day of Šafar	Arbaēîn Ĥosaynî 7 (concentrate on the subjects of knowledge and perform the ziyārat)

Yā Rasōlo-llāh, Yā ʿeṣ mato-llāh

The early days of the month of Rabiʿ al-awwal
the days of mourning for
Moḥammadi, Moḥseni and ʿĀskari :

صَلَّى اللهُ عَلَيْكَ يَا رَسُولَ اللهِ صَلَّى اللهُ عَلَيْكُمْ يَا أَهْلَ بَيْتِ النَّبَوَةِ

Šalla-llāho ʿalayka yā Rasōlo-llāh
šalla-llāho ʿalaykom yā Ahle bayte nobowwat

To get more details about this subject refer to the divin calendar of the month of Rabiʿ al-awwal in the *welāyat and barāʿat times* web site of Ḥayāt- aʿlā Foundation:
www.aelaa.net/Fa/viewforum.php?f=168

يا مولاتي يا فاطمة الزهراء أعيشيني

Yā Mawlāti Yā Fātēmah Zahrā Aḡīṣini

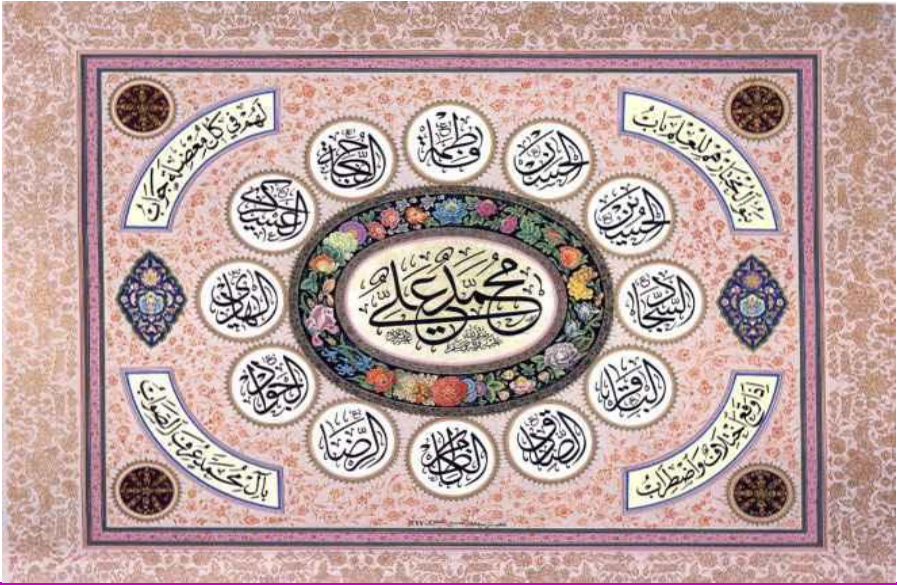

View of Rawdato-Nnabi 6 and the main door of the house of ḥazrat Mawlā and Fātēmah 3 through which Gabriel 7 didn't enter without permission. When ḥazrat Moḥammad 6 wanted to enter in this house, he laid his two hands on the both sides of the door and with a loud voice so that the people of the mosque hear, he recited the verse of the holy Qoran about the virtues of the Ahlol-Bayt and said salam to them and if he didn't hear answer, he turned and went away. This same door has been broken and burned and three people were done martyrs. The Muslims (with the exception of a few persons) watch this drama without saying anything. (In the left side of the picture; the door of the houde of Fātēmah 3 .. To hide it, the Wahhabis have put some shelves on doorstep and they have eliminated the inscription that was above the door).

The annular and partial Solar eclipse

29th of Ĵomāḏā al-ōlā 1437

*Invisible in Makkah, Middle East and Iran
In those areas there is no signs prayer.*

Date of the eclipse (according Mean Time KMT, Kaēbah – Makkah):

Wednesday 29th Ĵomāḏā al-ōlā 1437 = 20th Pisces = 19th Esfand 1394 = 9th March 2016

Location: India, southern half of China, Bangladesh, Burma, Thailand, Cambodia, Vietnam, Malaysia, Indonesia, Philippines, North and South Korea, Japan, Australia and West of Alaska.

Eclipse path:

The March 9th eclipse is Member 52 of 73 of saros 130.

The eclipse will start in India and Indian Ocean at 02:19:20 KMT and will continue its path, crossing the southern half of China, Indonesia, Australia and the Pacific Ocean to the West of Alaska, and will end at 07:34:55 KMT.

The maximum eclipse will occur at 04:57:11 KMT in the Pacific Ocean with a magnitude of 1.0450.

About the map of the eclipse path:

The area determined by a pink line on the left side of the map, shows the area where the eclipse will begin.

The area determined by a pink line on the right side of the map, shows the areas where the eclipse will end.

In the area determined by a pink line on the left side of the map, the solar eclipse will begin at the end of the night.

The area determined by a pink line, on the extreme left side of the map without blue line, designates the zone where the eclipse will be visible at sunrise. In this area, the eclipse will begin from the mid eclipse.

The area determined by a pink line on the left side of the map with blue lines, designates the mid eclipse and the phases of the eclipse after sunrise.

In the area determined by a pink line on the right side of the map, the night will begin before the end of the eclipse, so, the end phases of the eclipse will not be observed. The area determined by a pink line on the extreme right side of the map

with blue lines, designates the area of the mid eclipse and the phases after it, that will happen before sunset.

The area determined by a pink line on the right side of the map with blue lines, designates the mid eclipse and the phases after it, which will happen after sunset. In this area, it will be only in the late afternoon, before sunset, that the beginning of the eclipse will be visible. In this area, nor mid eclipse nor the end of the eclipse will not be observed.

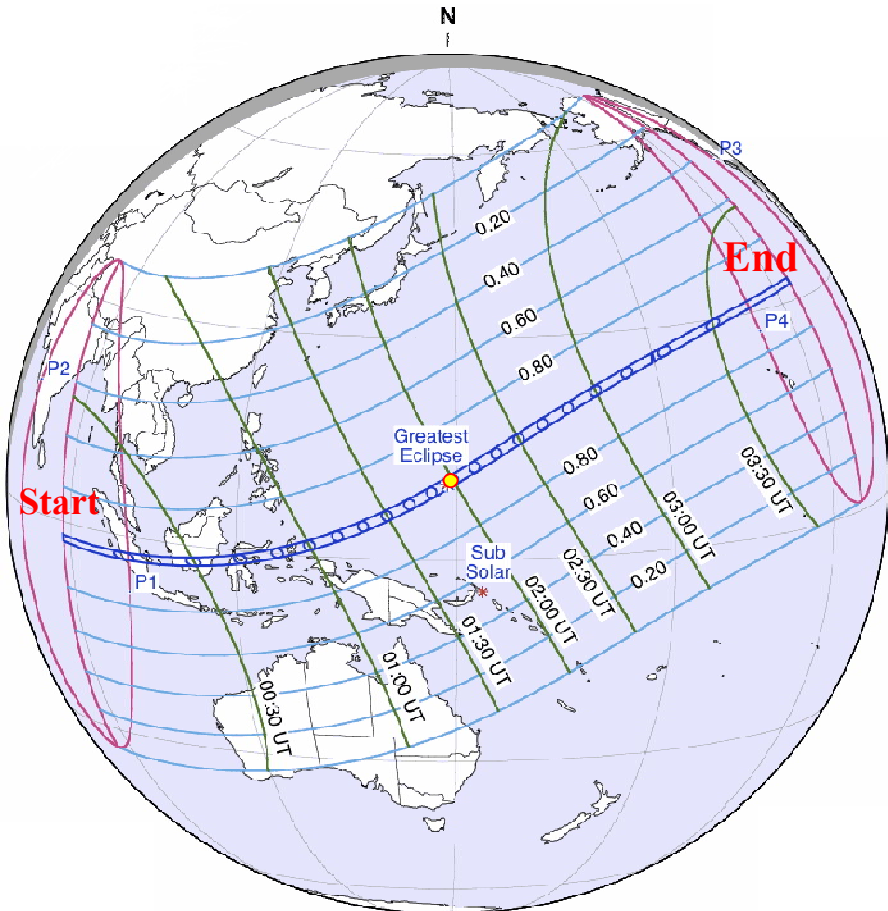

Outside of this zone, in areas determined by blue lines, all the phases of the eclipse will be observed.

The deep blue area indicates the region where the eclipse will be total.

In the other areas it will be a partial eclipse that should be visible.

The deep blue path corresponds to an area of 155.1km wide.

And the greatest duration of the total eclipse will be 4 minutes and 9 seconds.

Perform signs prayer

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

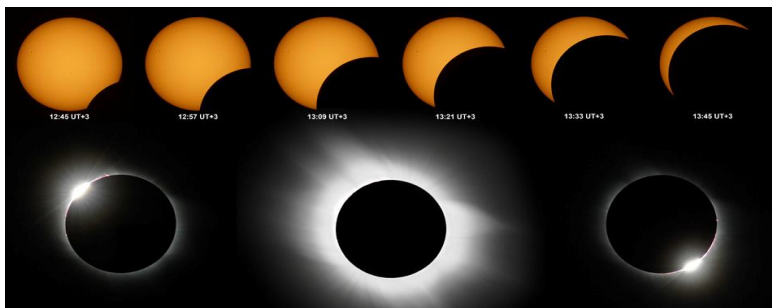

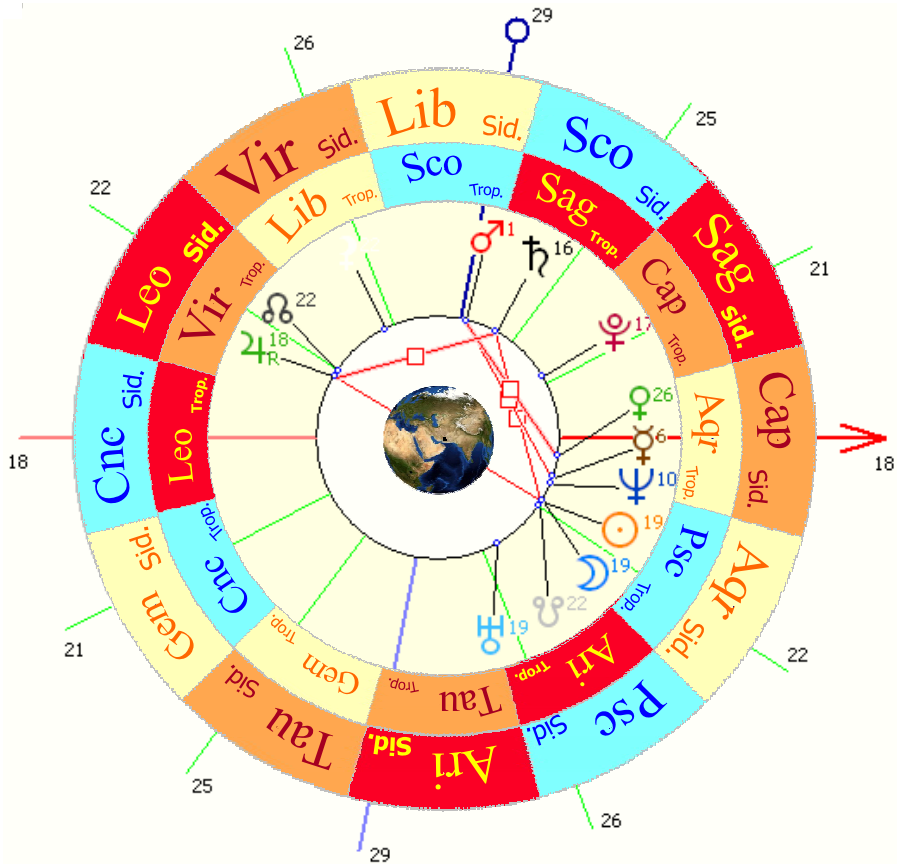

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Characteristics of Solar Eclipse where some Muslims live (in local time: LMT)

Cities names	The beginning of eclipse	Sun's altitude	Maximum eclipse	Sun's altitude	Sun's azimuth	End of Eclipse	Sun's altitude	Magnitude	Maximum eclipse

Fri	1	22	21	27	11	
Sat	2	23	22	28	12	The death of the second ambassador of the Nāhiyyah Moqaddasah in Iraq
Sun	3	24	23	29	13	Martyrdom of Ĥadrat Fāṭemah Zahrā 3
Mon	4	25	24	Āzār	14	
Tue	5	26	25	2	15	
Wed	6	27	26	3	16	
Thu	7	28	27	4	17	
Fri	8	29	28	5	18	
Sat	9	30	29	6	19	
Sun	10	Aries 07:31	Far. 1395	7	20	
Mon	11	2	2	8	21	
Tue	12	3	3	9	22	Inappropriate for worldly affairs: Avoid material things and be completely busy by worship
Wed	Lunar eclipse	4	4	10	23	Moonlight Nights (Full Moon)
Thu	14	5	5	11	24	Moonlight Nights (Full Moon)
Fri	15	6	6	12	25	Moonlight Nights (Full Moon)

The gatherings of acquisition of knowledge, manifestation of disavowal (barāʾat) and declaration of allegiance (welāyat).

The first day of
Ĵomādāal-okṛā

Get acquainted and be ready for the month of Ĵomādāal-okṛā

The 2nd day of
Ĵomādāal-okṛā

The death of the second ambassador of the Nāhiyyah Moqaddasah in Iraq
(knowledge about the rank of the ambassadors of the Nāhiyyah)

The third day of
Ĵomādāal-okṛā

Martyrdom of Ĥadrat Fāṭemah Zahrā 3
(mention of his immense rank and commemoration of the dramas suffered)

Penumbral Eclipse of the Moon: 13th Ĵomādā al-oĴrā 1437

Date of the eclipse:

Wednesday 13th Ĵomādā al-oĴrā 1437=4th Farwardin=4th Aries 1395= 23rd March 2016

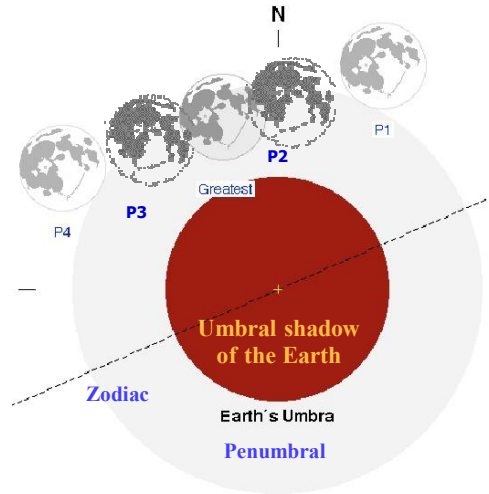

Location:

This eclipse will be visible in North America (West of Canada, US, Mexico to Panama), East of Asia from East of Russia, Mongolia, China, Burma to Australia and Oceania.

In those areas the signs prayer is obligatory.

The 23rd March eclipse is Member 18 of 74 of saros 142.

Penumbral magnitude: 0.7747

In the Šariĉa, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 12:39 KMT (P1) but it's only around 14:31 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the southern half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The total eclipse will reach its maximum at 14:47 KMT and until approximately 15:05 KMT, two-thirds of the moon are in darkness (P3).

After this point, the color change of the Moon will no longer be visible So, according the Šariĉa, it will be the end of the eclipse and the end of the obligation

of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 16:55 KMT (P4).

About the areas of visibility of the penumbral eclipse:

About the map of the eclipse path:

The grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

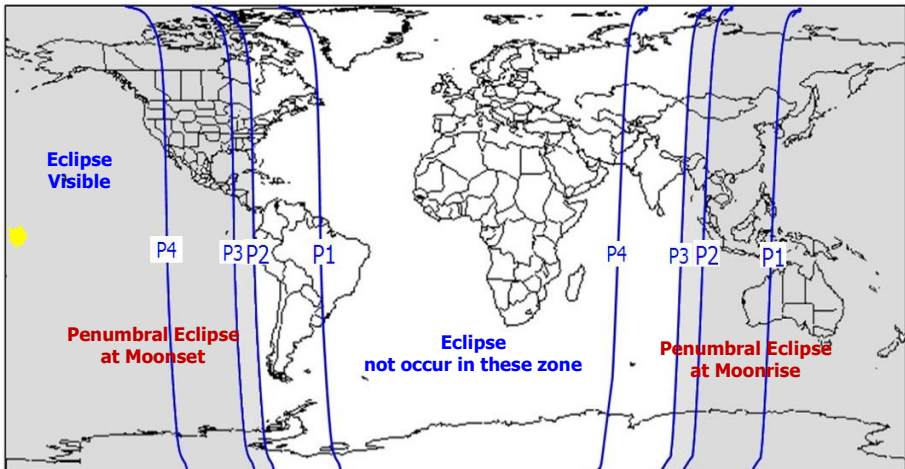

The center of the eclipse will happen in the Pacific Ocean.

Observation areas of all the phases of the penumbral eclipse:

In grey-shaded areas located between P3, in America and P2, in Asia, the penumbral eclipse will be observed after moonrise and the eclipse will end before moonset. In this area the penumbral eclipse will be the longer.

Observation areas of some phases of the penumbral eclipse:

In areas located between P2 and P3 in Asia, for the beginning of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur before moonrise but areas where the eclipse will coincide with moonrise, the eclipse will be visible. In areas located between P3 and P2 in America, the end of the penumbral eclipse of the Moon will happen after moonset, but in areas where the eclipse will coincide with Moonset, the eclipse will be visible.

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In these case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Eclipse Partial duration : 34 minutes

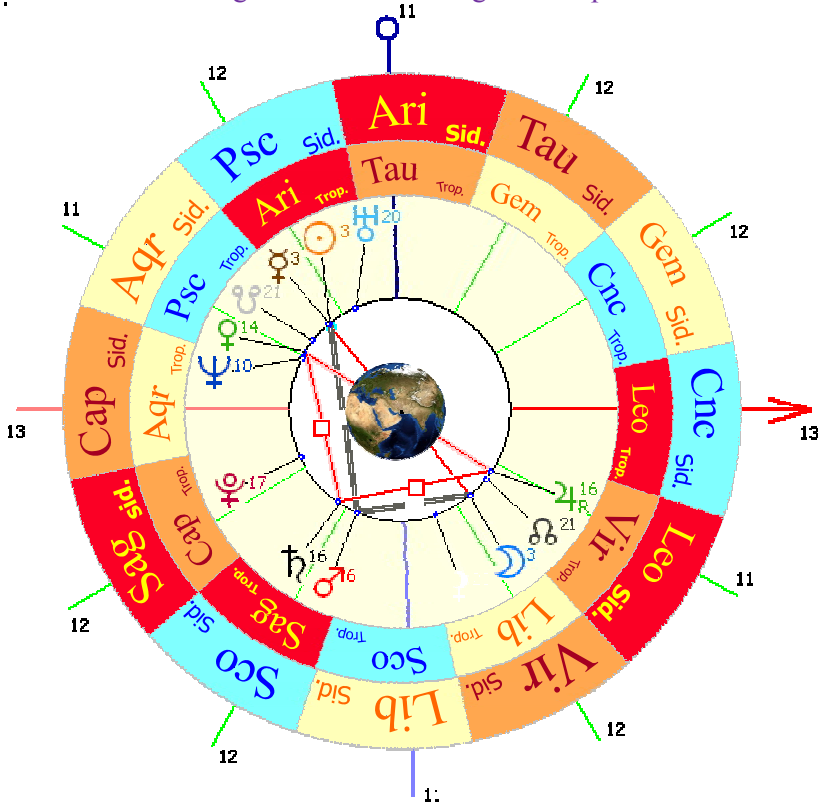

The hours of the lunar eclipse in the Muslims countries (Local Time : LMT)

Countries names	Beginning of the penumbral eclipse P2	Mid eclipse	End of the penumbral eclipse P3
Rangoon (Burma)	18:14 at Moonrise	18:17	19:05
West of Australia (Perth) - East of China-Macau-Hong Kng- Philippines-Malaysia-Taiwan-Russia (Baikal)	19:31	19:47	20:05
