The beginning of the religious ephemeride

*Thursday night, the night before the day of Thursday is
the first of the blessed month of Ramaḍān 1438 lunar hijri*

which is equivalent to:

1178 in the Era of Šāḥeb al-amr ﷺ

1491 from Moḥammad Nativity ﷺ

12541 from the creation of Ādam ﷺ

and

6th Gemini from Tropical calendar

6th Kōrdād 1396 Solar Hijri

27th May 2017 in Jesus Nativity ﷺ calendar

14th Ayār (Babylonian Eškandar Žolqarnayn)

Sun's position: Taurus in sidereal zodiac

*Moon's position : Gemini in sidereal zodiac and Cancer in
tropical zodiac*

Rise time of the fixed star Al-Boṭain in Arabic calendar in Faḡr

Conjunction of the Moon with the fixed stars of Al-Hanēah

Moon in the mansion of Al-Naḥrah

The blessed month of Ramaḍān 1438 lunar hijri

Happy New Year !

اللهم يا مقلب القلوب والأبصار ثبت قلوبنا وأبصارنا على دينك
اللهم يا مصرف القلوب صرف قلوبنا إلى طاعتك ونور أبصارنا بالقرآن
ويا محول الأحوال والأحوال حول حالنا إلى أحسن الحال

Happy New Year for the followers of the Truth

Invocation at the moment of the turn of the year

اللَّهُمَّ يا مقلب القلوب و الأبصار ثبت قلوبنا
و أبصارنا على دينك اللَّهُمَّ يا مصرف القلوب صرّف
قلوبنا الى طاعتك ونور أبصارنا بالقرآن و يا محول
الحول والأحوال حول حالنا إلى أحسن الحال

Lā elāha ellal-lah, Moḥammad rasōlol-lah, Aliyyan waliol-lāh, wa ennaho wa aōlādahol-maēasōmīn ḥojjaol-lah, wa anna Moḥammad ebnaḥ-Ḥasan, howal-qāāemo be amereḥ-lah

*The twenty-third night of
the blessed month of Ramaḍān*

Laylat al-Qadr

Beginning of the New Year for the followers of The Truth
May Allāh make us honest and worthy of the
presence of Ḥādrat Qodsiyyeh Waḥḥollāh

اللَّهُمَّ يَا مُغْلِبَ الْقُلُوبِ وَالْأَبْصَارِ ثَبِّتْ قُلُوبَنَا وَأَبْصِرْنَا عَلَى دِينِكَ اللَّهُمَّ يَا مُصْرِفَ الْقُلُوبِ صَرِّفْ قُلُوبَنَا إِلَى طَاعَتِكَ وَنُورِ قُلُوبَنَا وَأَبْصِرْنَا

بِالْقُرْآنِ وَيَا مُحَوِّلَ الْحَوْلِ وَالْأَحْوَالِ حَوِّلْ حَالَنَا إِلَى أَحْسَنِ أَحْوَالٍ

Allāhomma yā moqallebal-qolōbe wal-ābsār ṣabbet qolōbanā wa
absāranā ēalā dīnek. Allāhomma yā moṣarrefal-qolōb, ṣarref
qolōbanā alā iāēatek wa nawwer ābsāranā bel-qorān, wa yā
moḥawwela-l-ḥawle wal-aḥwāl ḥawwel ḥālanā elā aḥsanel-ḥāl

*O Allāh, the one who changing the hearts and the discernments,
keep our hearts and discernments for Your religion.*

*O Allāh, the one who making the hearts attentive, make our
hearts attentive to Your obedience
and our discernment illuminated by the Qur'an.*

*O Allāh, the one who changes situations and circumstances,
change our circumstance to the best of circumstances.*

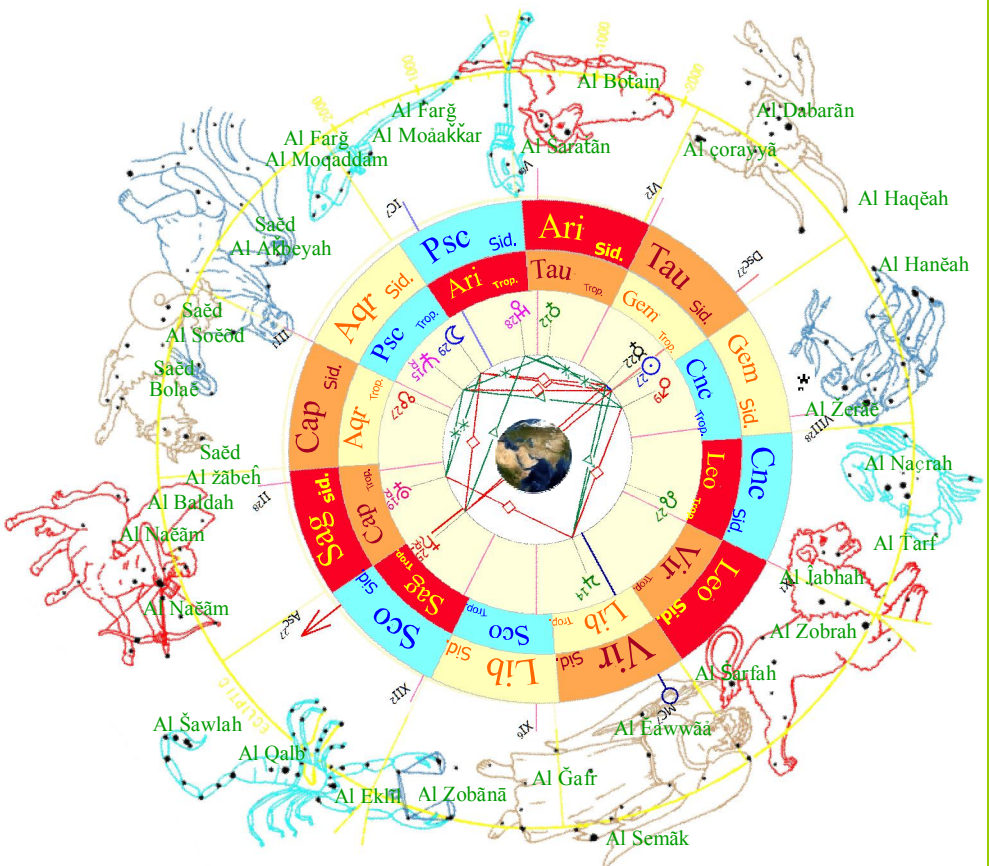

وَجَّهْتُ وَجْهِي لِلَّذِي فَطَرَ السَّمَوَاتِ وَالْأَرْضَ * عَالِمِ الْغَيْبِ وَالشَّهَادَةِ * عَلَى مِلَّةِ إِبْرَاهِيمَ
وَدِينِ مُحَمَّدٍ * وَوِلَايَةِ عَلِيٍّ وَ مِنْهَاجِ أَمِيرِ الْمُؤْمِنِينَ وَ هُدًى عَلِيٍّ بْنِ أَبِي طَالِبٍ * وَالْإِيْتِمَامِ
بِالْأَيْمَةِ مِنْ آلِ مُحَمَّدٍ (الحسن و الحسين و السجاد و الباقر و الصادق و الكاظم و الرضا و الجواد
و الهادي و العسكري و المهدي) صَلَوَاتُكَ عَلَيْهِمْ * حَنِيفًا مُسْلِمًا * وَمَا أَنَا مِنَ الْمُشْرِكِينَ * إِنَّ
صَلَائِي وَ نُسُكِي وَ مُحْيَايَ وَ مَمَاتِي لِلَّهِ رَبِّ الْعَالَمِينَ * لَا شَرِيكَ لَهُ وَ بِذَلِكَ أُمِرْتُ وَ أَنَا مِنَ
الْمُسْلِمِينَ * لَا إِلَهَ غَيْرُكَ وَ لَا مَعْبُودَ سِوَاكَ * اَللَّهُمَّ اجْعَلْنِي مِنَ الْمُسْلِمِينَ *

Wajjahto wajhī lellażī faīaras-samawāte wa-l-ard, ėālemel-ġaybe
waš-šahādah, ėalā mellate Ebrāhīma wa dīne Moĥammad, wa
welāyate Ėaliyyen wa menĥāje Amīre-l-moāmenīn, wa hodā Ėaliyye
ebne Abī Tāleb, wa-l-ītmāme be-l-aāemate men āle Moĥammad (al-
Ĥasan, al-Ĥosayn, al-Saġġād, al-Bāqer, al-Sādeq, al-Kaẓem, al-Redā,
al-Ĥawād, al-Hādī, al-Ėaskari wal-Mahdi) šalawātoka ėalayhem.
Ĥanīfan, mosleman, wa mā anā mena-l-mošrekīn. Enna šalātī wa
nosokī wa maĥyāya wa mamātī lellahe rabbe-l-ėālamīn, lā šarīka lah
wa beẓaleka omerto wa anā mena-l-moslemīn, lā elāha ġairoka wa lā
maėbōda sewāk. Allāhomma-ĵ-ėalnī mena-l mosallemīm.

*Verify, I have turned my face towards Him Who has created the
heavens and the earth, the All-Knower of the unseen and the seen.
according to the Ibrahim tradition and the religion of Muhammad,
the Welayat of Ėalī, the commander of the believers, and the
guidance of Ėalī ibn Abi Taleb, taking as Ėmāms, the Ėmāms of
Muhammad's Family (al-Ĥasan, al-Ĥosayn, al-Saġġād, al-Bāqer, al-
Sādeq, al-Kaẓem, al-Redā, al-Ĥawād, al-Hādī, al-Ėaskari wal-
Mahdi). I am monotheistic and I am not polytheistic. Verify, my
prayer, my ritual, my life and my death are for Allāh, the Lord of
the Worlds: for so I am commanded and I am Muslim. O my Lord
put me amongst the people who are muslim.*

The gatherings of acquisition of knowledge, manifestation of disavowal (barāāt) and declaration of allegiance (welāyat).

Date	Schedule of the assemblies
First Ži-Qaēdah	Get acquainted and be ready for the month of Ži-Qaēdah

Penumbral and partial Eclipse of the Moon on the 15th Ži-Qaėdah 1438.

Date of the eclipse:

The night before the day of Tuesday 15th Ži-Qaėdah 1438 = 17th Leo = 17th night of Amordād 1396 = 8th night of August 2017.

Location : This eclipse will be visible from Oceania and Australia, Asia (from East to West of Asia, including Middle East, Hijaz and Iran), Europe, Africa. In those areas the signs prayer is obligatory.

The August 8th night eclipse is Member 62 of 83 of saros 119.

Umbral magnitude: 0.2464

Penumbral magnitude: 1.2886

The legend of the codes of diagram:

P1: first point of exterior contact times with the penumbra

P2: The penumbra covers two-thirds of the moon's surface= the beginning of the penumbral eclipse

U1: first point of external point of contact with the shadow= the beginning of the partial eclipse

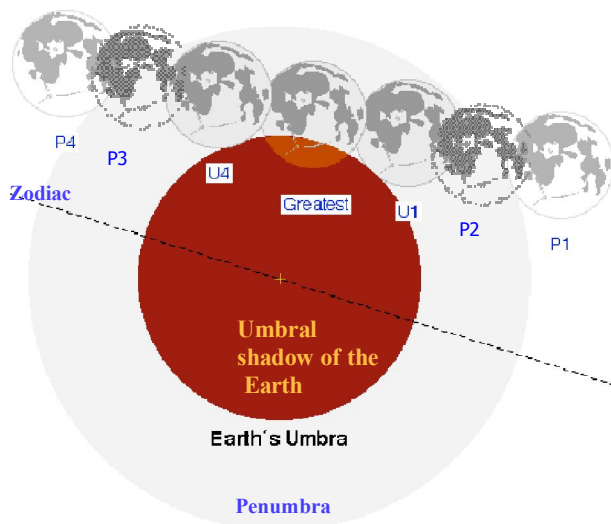

U2: the beginning of the total eclipse

U3: the end of the total eclipse

U4: the end of the partial eclipse

P3: the last point where penumbra covers two-thirds of the moon's surface= the end of the penumbral eclipse

P4: last point of exterior contact times of the Moon's penumbral shadow.

The hours of the penumbral, and partial eclipse:

In the Šariĕa, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 18:50 KMT (P1) but it's only around 19:52 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the southern half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The partial eclipse will begin at 20:23 KMT (U1) and will finish at 22:18 KMT (U4).

The total eclipse will reach its maximum at 21:22 KMT and until approximately 22:49 KMT, two-thirds of the moon are in darkness (P3).

After this point, the color change of the Moon will no longer be visible So, according the Šariĕa, it will be the end of the eclipse and the end of the obligation of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 23:50 KMT (P4).

Eclipse Partial duration: 1 hour and 55 minutes

Penumbral and Partial lunar eclipse duration: 2 hours and 57 minutes

The areas of visibility of the penumbral and partial eclipse:

In the following map; the grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

The center of the eclipse will happen in the Pacific Ocean. About the areas of the penumbral lunar eclipse located between P1 and P4:

- 1) In Asia and Australia: the eclipse will occur in the setting Moon.
- 2) In Asia, Europe and Africa to Brazil, the eclipse will occur in the rising Moon.

Observation areas of all the phases of the penumbral and partial eclipse:

In grey-shaded areas located between P2, in Africa and P3, in Asia and East of Australia, all the phases of the eclipse will be observed after moonrise and the eclipse will end before moonset.

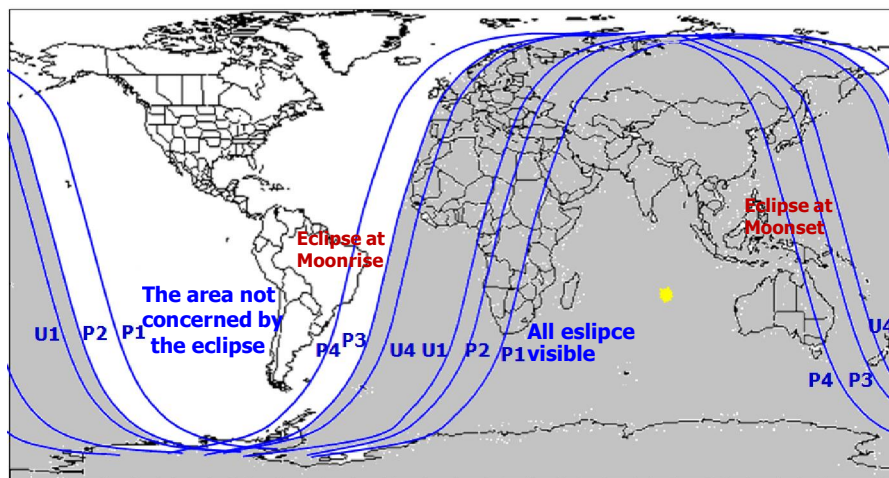

In those areas, the eclipse will be the longer.

In grey-shaded areas located between U1, in Africa and U4 in East of Australia, the partial eclipse will begin after moonrise and will end before moonset. In this area the total eclipse will be the longer.

Observation areas of some phases of the penumbral and partial eclipse.

In Africa, Europe et western Asia:

In areas located between P3 and U4, the end of the penumbral eclipse of the Moon will happen after moonset, therefore the eclipse in those areas will not be visible. Similarly, between U4 and U1, for the partial eclipse, between U1 and P2 for penumbral eclipse, the observation of the eclipse will not be possible in areas where the eclipse will occur after moonset but in areas where the eclipse will coincide with Moonrise, the eclipse will be visible.

In East of Asia and Australia:

In areas located between P3 and U4, the end of the penumbral eclipse will occur before moonrise, therefore the eclipse will not be visible.

Similarly, in the areas between U4 and U1 for the end of the partial eclipse. And between U1 and P2, for the end of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur after moonrise but areas where the eclipse will coincide with moonrise, the eclipse will be visible.

On the map, the white areas, between P1 and P2, in the West America and the areas between P4 and P3, in in the East of America, the penumbral eclipse only will occur but it will not be perceptible because the penumbra will cover less than two-thirds of the full Moon and the color change of the Moon will not perceptible.

In those areas, according to the criteria of the Šariča, there is no eclipse and no signs prayer.

Astrological chart of the mid eclipse

The Lunar eclipse will occur
at the Moon's descending node
in the Sixteen degrees of sidereal Pisces
and tropical Aquarius

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In this case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case.

The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the obligation of the signs prayer.

The 23rd day of Ži-Qaēdah	Martyrdom of Ĥadrat Ēmām Redā عیسیٰ (mention of his immense rank and commemoration of the dramas suffered)
The 30th day of Ži-Qaēdah	Martyrdom of Ĥadrat Ēmām Ĵawād جواد (mention of his immense rank and commemoration of the dramas suffered)

The annular, total and partial Solar eclipse 29th of Žĩ-Qaědah 1438.

.Date of the eclipse: According Mean Time KMT, Kaěbah – Makkah

The night before the day of Tuesday 29th Žĩ-Qaědah 1438 = 31st Leo = 31st Amordād 1396 = 22nd August 2017.

Location: East of Russia, North America (Canada, United States, Mexico and Latin America), to Peru and north of Brazil, the Atlantic Ocean to the shores of West Africa.

Eclipse path:

The August 22nd eclipse is Member 22 of 77 of saros 145. The eclipse will start from the Pacific Ocean in the west of America at 18:46:51 KMT and will continue its path, crossing the Pacific Ocean and North America and parts of South America, will end near the coast of East of Africa at 24:04:23 KMT. The maximum eclipse will occur at 21:26:40 KMT in the United States with a magnitude of 1.0306.

About the map of the eclipse path:

The area determined by a pink line on the left side of the map, shows the area where the eclipse will begin.

The area determined by a pink line on the right side of the map, shows the areas where the eclipse will end.

In the area determined by a pink line on the left side of the map, the solar eclipse will begin at the end of the night.

The area determined by a pink line, on the extreme left side of the map without blue line, designates the zone where the eclipse will be visible at sunrise. In this area, the eclipse will begin from the mid eclipse.

The area determined by a pink line on the left side of the map with blue lines, designates the mid eclipse and the phases of the eclipse after sunrise.

In the area determined by a pink line on the right side of the map, the night will begin before the end of the eclipse, so, the end phases of the eclipse will not be observed.

The area determined by a pink line on the extreme right side of the map with blue lines, designates the area of the mid eclipse and the phases after it, that will happen before sunset.

The area determined by a pink line on the right side of the map with blue lines, designates the mid eclipse and the phases after it, which will happen after sunset. In this area, it will be only in the late afternoon, before sunset, that the beginning of the eclipse will be visible. In this area, nor mid eclipse nor the end of the eclipse will not be observed.

Outside of this zone, in areas determined by blue lines, all the phases of the eclipse will be observed.

The red line shows the maximum eclipse zone and has 114.7 kilometers of width.

Perform signs prayer

The beginning of the time of signs prayer is the beginning of the eclipse.

It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse.

The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column.

As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case.

The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Characteristics of Solar Eclipse where Muslims live (in local time: LMT)

Month of Šafar

Following of **the mourning for Ēmām Ĥosayn** عليه السلام
and days of **grief and captivity of the House Hold of the Prophet** صلى الله عليه وآله
Qalla l-lāho ėalayka yā mawlā yā abā Moĥammad al-Ĥassan al-Moĵtabā
The seventh day of the month of Šafar
the martyrdom of Ĥādrat Ēmām Ĥasan Moĵtabā عليه السلام

View of the Sanctuary of the martyrs of Šeffin battle

The eighteenth day of Šafar is the commemoration of the martyrs of the Šeffin battle. Ĥādrat Mawlā himself made the funeral prayer and buried them himself (Ēamār, Oweys, Ĥazīmeĥ, Abol Heyĉam and ...). This place is also the qadamgah and mošallā of Ĥādrat Mawlā, Ĥādrat Ēmām Ĥasan Moĵtabā and Ĥādrat Ēmām Ĥosayn. The importance of this place is so remarkable that it is worthy recommended to go there for ziyārat and spending a few days near the martyrs. Allāh grants this success to all believers.

A shrine has been built in Ar-Raqqah in Syria. This shrine is the result the efforts of Ayatollāh Fehrī. But recently it has been destroyed by the Nāsebīs

To get more details about those topics refer to the divin calendar of the month of Šafar in **welāyat** and **barāāat** times and **Ĥayāt-aēlā Media** in website of **Ĥayāt-aēlā** Foundation: <http://www.Aelaa.net/Fa/viewforum.php?f=167>

The 18th day of Šafar	Martyrdom of Oways al-Qaranī ﷺ alongside Mawlā ﷺ (Commemoration of the Martyrs of Šeffayn)
The 20th day of Šafar	Arbaēn Ĥosaynī ﷺ (concentrate on the subjects of knowledge and perform the ziyārat)

Yā Rasōlo-llāh, Yā ʿeśmato-llāh

The early days of the month of Rabiʿ al-awwal
the days of mourning for
Moḥammadi, Moḥseni and ʿĀskari ﷺ

صَلَّى اللهُ عَلَيْكَ يَا رَسُولَ اللهِ صَلَّى اللهُ عَلَيْكُمْ يَا أَهْلَ بَيْتِ النَّبَوَةِ
Šalla-llāho ʿalayka yā Rasōlo-llāh
šalla-llāho ʿalaykom yā Ahle bayte nobowwat

To get more details about this subject refer to the divin calendar of the month of Rabiʿ al-awwal in the *welāyat and barāʿat times* web site of *Ĥayāt- aʿlā* Foundation:
www.aelaa.net/Fa/viewforum.php?f=168

يا مولاتي يا فاطمة الزهراء أعيشيني

Yā Mawlāti Yā Fātēmah Zahrā Aḡiḥini

View of Rawdato-Nnabi and the main door of the house of ḥazrat Mawlā and Fātēmah through which Gabriel didn't enter without permission. When ḥazrat Moḥammad wanted to enter in this house, he laid his two hands on the both sides of the door and with a loud voice so that the people of the mosque hear, he recited the verse of the holy Qoran about the virtues of the Ahlol-Bayt and said salam to them and if he didn't hear answer, he turned and went away. This same door has been broken and burned and three people were done martyrs. The Muslims (with the exception of a few persons) watch this drama without saying anything.

In the left side of the picture; the door of the house of Fātēmah. To hide it, the Wahhabis have put some shelves on doorstep and they have eliminated the inscription that was above the door.

The 14th day of Ĥomādā al-ōlā	Mourning for Martyrdom of Ĥādrat Fātēmah Zahrā ﷺ (according to non-Shia sources)

Penumbral, partial and total Eclipse of the Moon on the 14th Jomādāal-ōlā 1439.

Date of the eclipse:

Friday 14th Jomādāal-ōlā 1439 = 11th Aquarius = 11th Bahman 1396 = 31st January 2018.

Location : This eclipse will be visible in the Oceania, Australia, Asia (from East to West of Asia, including the Middle East, Hijaz and Iran), to the Red Sea, East of Europe to Romania and Norway, North America to north of Colombia. In those areas the signs prayer is obligatory.

The January 31st eclipse is Member 49 of 74 of saros 124.

Umbral magnitude: 1.3155

Penumbral magnitude: 2.2941

The legend of the codes of diagram:

P1: first point of exterior contact times with the penumbra

P2: The penumbra covers two-thirds of the moon's surface= the beginning of the penumbral eclipse

U1: first point of external point of contact with the shadow= the beginning

of the partial eclipse

U2: the beginning of the total eclipse

U3: the end of the total eclipse

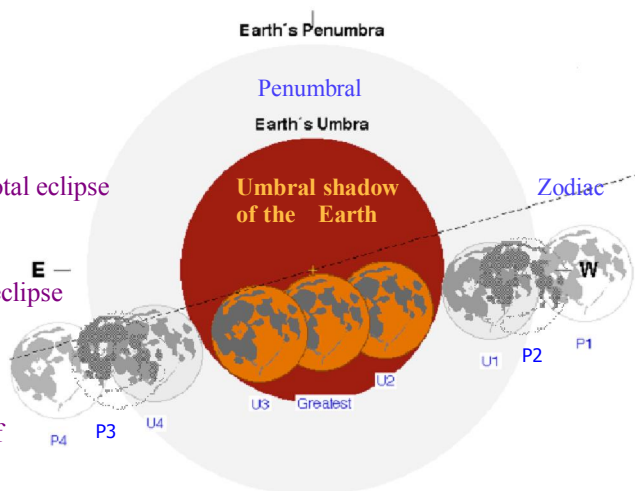

U4: the end of the partial eclipse

P3: the last point where

Penumbra covers

two- thirds of the moon's surface= the end of the penumbral eclipse

P4: last point of exterior contact times of the Moon's penumbral shadow.

The hours of the penumbral, total and partial eclipse:

In the Šariĕa, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 13:51 KMT (P1) but it's only around 14:28 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the southern half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The partial eclipse will begin at 14:48 KMT (U1) and will finish at 18:11 KMT (U4).

The total eclipse (U2) will begin at 15:52 KMT and will end at 17:07 KMT (U3).

The total eclipse will reach its maximum at 15:52 KMT and until approximately 18:30 KMT, two-thirds of the moon are in darkness (P3).

After this point, the color change of the Moon will no longer be visible So, according the Šariča, it will be the end of the eclipse and the end of the obligation of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 19:09 KMT (P4).

The areas of visibility of the penumbral, total and partial eclipses:

In the following map; the grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

The center of the eclipse will happen in the Pacific Ocean. About the areas of the penumbral lunar eclipse located between P1 and P4:

- 1) In America: the eclipse will occur in the setting Moon.
- 2) In Asia and Europa, the eclipse will occur in the rising Moon.

Observation areas of all the phases of the penumbral, partial and total eclipses:

In grey-shaded areas located between P3, in west of America and P2, in Asia, all the phases of the eclipse will be observed after moonrise and the eclipse will end before moonset.

In those areas, the eclipse will be the longer.

In grey-shaded areas located between U1, in Asia and U4 in America, the partial eclipse will begin after moonrise and will end before moonset.

In those areas, the partial eclipse will be the longer.

In grey-shaded located between U3, in Asia and Europe and U2, in America, the total eclipse will begin after moonrise and will end before moonset.

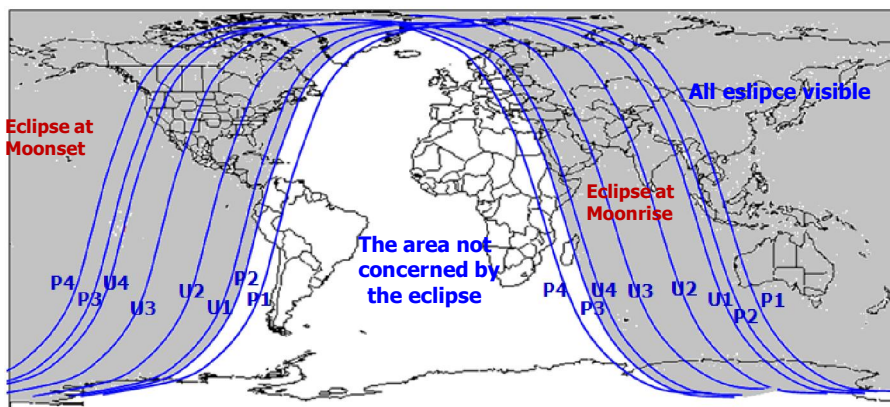

In this area the total eclipse will be the longer.

Observation areas of some phases of the penumbral, partial and total eclipse:

In Asia and Africa and Europe:

In areas located between P3 and U4, the end of the penumbral eclipse of the Moon will happen after moonset, therefore the eclipse in those areas will not be visible.

Similarly, for the end of the partial eclipse in the areas between U3 and U4. Between U2 and U3, for the total eclipse, between U1 and U2, for the partial eclipse, between U1 and P2 for penumbral eclipse, the observation of the eclipse will not be possible in areas where the eclipse will occur after moonset but in areas where the eclipse will coincide with Moonset, the eclipse will be visible.

In America:

In areas located between P3 and U4, the end of the penumbral eclipse will occur before moonrise, therefore the eclipse will not be visible.

Similarly, in the areas between U3 and U4 for the end of the partial eclipse. Between U2 and U3, for the total eclipse, between U1 and U2, for the beginning of the partial eclipse.

And between U1 and P2, for the beginning of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur after moonrise but areas where the eclipse will coincide with moonrise, the eclipse will be visible.

On the map, the white areas, between P1 and P2, in America and the areas between P4 and P3, in Africa and Europe, the penumbral eclipse only will occur but it will not be perceptible because the penumbra will cover less than two-thirds of the full Moon and the color change of the Moon will not perceptible.

In those areas, according to the criteria of the Šariča, there is no eclipse and no signs prayer.

Astrological chart of the mid eclipse

The Lunar eclipse will occur at the Moon's ascending node in the 12th degree of sidereal Cancer and tropical Leo.

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In these case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse.

It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse.

The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case.

The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Eclipse Partial duration: 3 hours and 23 minutes

Eclipse total duration: 1 hour and 16 minutes

Penumbral, Partial and Total lunar eclipse duration: 4 hours and 1 minute
