

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ وَبِهِ نَسْتَعِينُ إِنَّهُ خَيْرُ نَاصِرٍ وَمَعِينٍ الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ وَصَلَّى اللَّهُ عَلَى مُحَمَّدٍ وَعَلَى آلِهِمَا الطَّيِّبِينَ الطَّاهِرِينَ وَلَعْنَةُ اللَّهِ عَلَى أَعْدَائِهِمْ أَجْمَعِينَ أَبَدًا آمِينَ

In the name of Allah the Compassionate and the Merciful. We asking help to Allah: verily He is the best Helper. Praise Allah, the Lord of the worlds. May Allah pray on Mohammad, Eali and their family the virtuous, the pures and curse of Allah be with their enemies forever and ever.

Allah the High, the Immense in His sage and high Book said: **فَالِقُ الْإِصْبَاحِ وَجَعَلَ اللَّيْلَ سَكَنًا وَالشَّمْسُ وَالْقَمَرُ حُسْبَانًا**

Cleaver of the daybreak. He has appointed the night for resting, and the sun and the moon for reckoning. Such is the measuring of the All-Mighty, the All-Knowing.

The mean solar time of the calendars of Hayât-aġlā Foundation is Mean Time **KMT**, Kaġbah - Makkah

THE ANNUAL LETTER OF THE

Religious Ephemeris

Lunar and solar islamic hijri calendars, Moġammad Nativity ﷺ, Jesus Nativity ﷺ, Eskandarian calendar, Year counting from the creation of Ādam ﷺ and the Era of Mawlā Šāġheb al-amr ﷺ.

**Determine the beginning of the lunar months,
Moonlight Nights, Interlunar days, Moon in sidereal Scorpio sign,
inauspicious times and days (for material and worldly affairs), lunar and solar eclipses.**

**Welāyat and barāġeat dates
and the schedule of the religious assemblies**

Month of Ramaġdān 1435-1436 lunar hijri
1393-94 solar hijri = 2014-15 Jesus Nativity ﷺ

The beginning of the religious ephemeris

*Tuesday night, the night before the day of Sunday:
the first of the blessed month of Ramaḍān 1435 lunar hejri*

which is equivalent to:

1175 *the Era of Šāhīb al-amr* ﷺ

1488 *Mohammad Nativity* ﷺ

12539 *from the creation of Ādam* ﷺ

which is equivalent to :

18th Cancer from Tropical calendar: 8th Tir 1393 Solar Hijri

29th June 2014 the Jesus Nativity ﷺ

16th Ĥazīrān (Babylonia Eskandar Žolqarnayn)

Sun's position in sidereal zodiac : Gemini

*Moon's position : Gemini in sidereal zodiac and Cancer in
tropical zodiac*

*Rise time of the fixed star of Al- Dabarān in Arabic
calendar and rise time of the fixed star of Al-Dabarān
Conjunction of the Moon with the fixed stars of al-Žerāē*

Moon's position in the mansion of Al-Ṭarf

The blessed month of Ramaḍān 1435 lunar hijri

Happy New Year !

اللهم يا مقلب القلوب والأبصار ثبت قلوبنا وأبصارنا على دينك
اللهم يا مصرف القلوب صرف قلوبنا إلى طاعتك ونور أبصارنا بالقرآن
ويا محول الأحوال والأحوال حول حالنا إلى أحسن الحال

Happy New Year for the followers of the Truth

Invocation at the moment of the turn of the year

اللَّهُمَّ يا مقلب القلوب و الأبصار ثبت قلوبنا
و أبصارنا على دينك اللَّهُمَّ يا مصرف القلوب صرّف
قلوبنا الى طاعتك ونور أبصارنا بالقرآن و يا محول
الحول والأحوال حول حالنا إلى أحسن الحال

Allāhomma yā moqallebal-qolōbe wal-ābsār ṣabbet
qolōbanā wa absāranā ʿalā dīnek. Allāhomma yā
moṣarrefal-qolōb, ṣarref qolōbanā alā tāʿatek wa nawwer
ābsāranā bel-qorān, wa yā moḥawwela-l-ḥawle wal-aḥwāl
ḥawwel ḥālanā elā aḥsanel-ḥāl

*O Allāh, the one who changing the hearts
and the discernments, keep our hearts
and discernments for Your religion.*

*O Allāh, the one who making the hearts
attentive, make our hearts attentive
to Your obedience and our discernment
illuminated by the Qurān.*

*O Allāh, the one who changes situations and
circumstances, change our circumstance
to the best of circumstances.*

The 21th night of Ramadhān	Martyrdom of Ĥādrat Mawlā Ēālī ﷺ (Mourning for their calamity, night of vigil and adoration)
The 23th night of Ramadhān	Laylat al-Qadr (night of vigil, adoration, knowledge and welāyat) Beginning of the new year for the followers of the Truth

لا إله إلا الله محمد رسول الله علي ولي الله وإنه وأولاده المعصومين حجج الله وأن محمد بن الحسن هو القائم بأمر الله

Lā elāha ellal-lah, Moḥammad rasōlol-lah, Aliyyan waliol-lāh, wa ennaho wa aōlādahol-maēasōmīn ḥojjaol-lah, wa anna Moḥammad ebnaḥ-Ḥasan, howal-qāāemo be amereḥ-lah

*The twenty-third night of
the blessed month of Ramaḍān*

Laylat al-Qadr

Beginning of the New Year for the followers of The Truth
May Allāh make us honest and worthy of the
presence of Ḥādrat Qodsiyyeh Waḥḥollāh

اللهم يا مقلب القلوب والأبصار ثبت قلوبنا وأبصارنا على دينك اللهم يا مصرف القلوب صرف
قلوبنا إلى طاعتك ونور قلوبنا وأبصارنا بالقرآن وبما يحمل الحول والأحوال حول حالتنا إلى أحسن الحال

Allāhomma yā moqallebal-qolōbe wal-ābsār ḥabbet qolōbanā wa absāranā
ēalā dīnek. Allāhomma yā mošarrefal-qolōb, šarref qolōbanā alā tāēatek
wa nawwer ābsāranā bel-qorān, wa yā moḥawwela-l-ḥawle wal-aḥwāl
ḥawwel ḥālanā elā aḥsanel-ḥāl

O Allāh, the one who changing the hearts and the discernments,
keep our hearts and discernments for Your religion.

O Allāh, the one who making the hearts attentive, make our
hearts attentive to Your obedience
and our discernment illumined by the Qur'an.

O Allāh, the one who changes situations and circumstances,
change our circumstance to the best of circumstances.

وَجَّهْتُ وَجْهِي لِلَّذِي فَطَرَ السَّمَوَاتِ وَالْأَرْضَ * عَالِمِ الْغَيْبِ وَالشَّهَادَةِ * عَلَى مِلَّةِ إِبْرَاهِيمَ
 وَدِينِ مُحَمَّدٍ * وَوَلَايَةِ عَلِيٍّ وَ مِنْهَاجِ أَمِيرِ الْمُؤْمِنِينَ وَ هُدَى عَلِيِّ بْنِ أَبِي طَالِبٍ * وَالْإِيْتِمَامِ
 بِالْأَيْمَةِ مِنْ آلِ مُحَمَّدٍ (الحسن و الحسين والسجاد والباقر والصادق والرضا والجواد والهادي
 والعسكري والمهدي) صَلَوَاتُكَ عَلَيْهِمْ * حَنِيفًا مُسْلِمًا * وَمَا أَنَا مِنَ الْمُشْرِكِينَ * إِنَّ
 صَلَاتِي وَنُسُكِي وَمَحْيَايَ وَمَمَاتِي لِلَّهِ رَبِّ الْعَالَمِينَ * لَا شَرِيكَ لَهُ وَبِذَلِكَ أُمِرْتُ وَأَنَا مِنَ
 الْمُسْلِمِينَ * لَا إِلَهَ غَيْرُكَ وَ لَا مَعْبُودَ سِوَاكَ * اَللَّهُمَّ اجْعَلْنِي مِنَ الْمُسْلِمِينَ *

Waĵjahto waĵhī lellażī fataras-samawāte wa-l-ard, ěälemel-ġaybe
 waš-šahādah, ěalā mellate Ebrāhīma wa dīne Moĥammad, wa
 welāyate Ėaliyyen wa menĥāĵe Amīre-l-moāmenīn, wa hodā Ėaliyye
 ebne Abī Tāleb, wa-l-ītmāme be-l-aāemate men āle Moĥammad (al-
 Ĥasan, al-Ĥosayn, al-Saĵĵād, al-Bāqer, al-Sādeq, al-Redā, al-Ĵawād, al-
 Hādi, al-Ėaskari wal-Mahdi) šalawātoka ěalayhem. Ĥanīfan,
 mosleman, wa mā anā mena-l-mošrekīn. Enna šalātī wa nosokī wa
 maĥyāya wa mamātī lellahe rabbe-l-ěālamīn, lā šarīka lah wa
 bežaleka omerto wa anā mena-l-moslemīn, lā elāha ġairoka wa lā
 maěböda sewāk. Allāhomma-ĵ-ěalnī mena-l mosallemīm.

*Verily, I have turned my face towards Him Who has created the
 heavens and the earth, the All-Knower of the unseen and the seen.
 according to the Ibrahim tradition and the religion of Muhammad,
 the Welayat of Ėalī, the commander of the believers, and the
 guidance of Ėalī ibn Abi Taleb, taking as Ėmāms, the Ėmāms of
 Muhammad's Family (al-Ĥasan, al-Ĥosayn, al-Saĵĵād, al-Bāqer, al-
 Sādeq, al-Redā, al-Ĵawād, al-Hādi, al-Ėaskari wal-Mahdi). I am
 monotheistic and I am not polytheistic. Verily, my prayer, my ritual,
 my life and my death are for Allāh, the Lord of the Worlds: for so I
 am commanded and I am Muslim. O my Lord put me amongst the
 people who are muslim.*

Penumbral, partial and total Eclipse of the Moon on the 13th Ži-Ĥejĵah 1435.

Date of the eclipse:

Wednesday 13th Ži-Ĥejĵah 1435= 16th Mehr = 16th Libra 1393 = 8th October 2014.

Location : This eclipse will be visible from the middle of Asia (Afghanistan, Pakistan and Russia) to Eastern Asia, China and Australia, Pacific Ocean, North and South America.

In those areas the signs prayer is obligatory.

In Makkah Mukarramah, Hejaz and Iran, the eclipse will not visible and there is no signs prayer.

. Saros Series 127 This is the 42th eclipse of

Umbral magnitude: 1.1659

Penumbral magnitude: 2.1456

The legend of the codes of diagram:

P1: first point of exterior contact times with the penumbra

P2: The penumbra covers two-thirds of the moon's surface= the beginning of the penumbral eclipse

U1: first point of external

point of contact with the

shadow= the beginning

of the partial eclipse

U2: the beginning of the

total eclipse

U3: the end of the total

eclipse

U4: the end of the partial

eclipse

P3: the last point where

penumbra covers two-

thirds of the moon's

surface= the end of the

penumbral eclipse

P4: last point of exterior

contact times of the

Moon's penumbral shadow.

The hours of the penumbral, total and partial eclipse:

In the Šariĕah, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 11:16 KMT (P1) but it's only around 11:55 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the southern half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The partial eclipse will begin at 12:15 KMT (U1) and will finish at 15:34 KMT (U4).

The total eclipse (U2) will begin at 13:25 KMT and will end at 14:24 KMT (U3).

The total eclipse will reach its maximum at 13:55 KMT and until approximately 15:54 KMT, two-thirds of the moon are in darkness (P3).

After this point, the color change of the Moon will no longer be visible So, according the Šariĕah, it will be the end of the eclipse and the end of the obligation of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 16:34 KMT (P4).

The areas of visibility of the penumbral, total and partial eclipses:

In the following map; the grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

The center of the eclipse will happen in the middle of the Pacific Ocean.

About the areas of the penumbral lunar eclipse located between P1 and P4:

- 1) In North and South America: the eclipse will occur in the setting Moon.
- 2) In Eastern Asia and Australia, the eclipse will occur in the rising Moon.

Observation areas of all the phases of the penumbral, partial and total eclipses:

In grey-shaded areas located between P3, in Eastern Asia and P2, in America, all the phases of the eclipse will be observed after moonrise and the eclipse will end before moonset.

In those areas, the eclipse will be the longer.

In grey-shaded areas located between U1, in Australia and U4 in America, the partial eclipse will begin after moonrise and will end before moonset.

In those areas, the partial eclipse will be the longer.

In grey-shaded located between U3, in Asia and U2, in America, the total eclipse will begin after moonrise and will end before moonset.

In this area the total eclipse will be the longer.

Observation areas of some phases of the penumbral, partial and total eclipse:

In North and South America:

In areas located between P3 and U4, the end of the penumbral eclipse of the Moon will happen after moonset, therefore the eclipse in those areas will not be visible. Similarly, for the end of the partial eclipse in the areas between U3 and U4. Between U2 and U3, for the total eclipse, between U1 and U2, for the partial eclipse, between U1 and P2 for penumbral eclipse, the observation of the eclipse will not be possible in areas where the eclipse will occur after moonset but in areas where the eclipse will coincide with Moonset, the eclipse will be visible.

In western Asia and Australia:

In areas located between P3 and U4, the end of the penumbral eclipse will occur before moonrise, therefore the eclipse will not be visible.

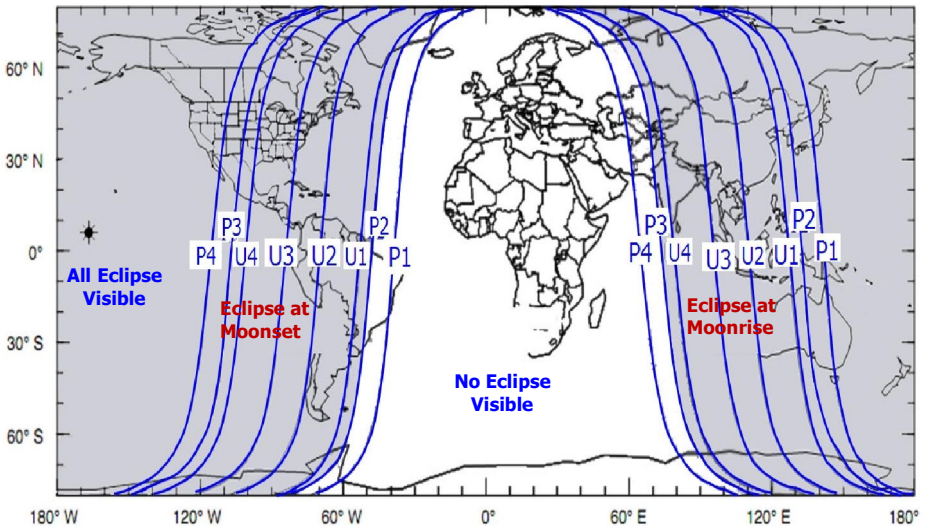

Similarly, in the areas between U3 and U4 for the end of the partial eclipse.

Between U2 and U3, for the total eclipse, between U1 and U2, for the beginning of the partial eclipse.

And between U1 and P2, for the beginning of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur after moonrise but areas where the eclipse will coincide with moonrise, the eclipse will be visible.

On the map, the white areas, between P1 and P2, in Eastern Americas and the areas between P4 and P3, in Asia, the penumbral eclipse only will occur but it will not be perceptible because the penumbra will cover less than two-thirds of the full Moon and the color change of the Moon will not perceptible.

In those areas, according to the criteria of the Šari'ah, there is no eclipse and no signs prayer.

Astrological chart of the mid eclipse

The Lunar eclipse will occur at the Moon's descending node in the 15th degree sidereal Pisces and tropical Aries

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In this case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the obligation of the signs prayer .

Eclipse Partial duration : 2 hours and 20 minutes

Eclipse total duration: 59 minutes

Penumbral, Partial and Total lunar eclipse duration: 3 hours and 59 minutes

The gatherings of acquisition of knowledge, manifestation of disavowal (barāāt) and declaration of allegiance (welāyat).

Date	Schedule of the assemblies
The 18th day of Ži-Ĥejjah	Ĥīd Allāho Akbar: Universal notification of the Welāyat and the Caliphate of Mawlā ﷺ (Welāyat festival)

The partial Solar eclipse 29th of Žĩ-Ĥejjah 1435

Date of the eclipse: According Mean Time KMT, Kaēbah – Makkah)

Friday 29th Žĩ-Ĥejjah 1435= 2th Scorpio= 2th Ābān 1393= 24th October 2014

Location: Eastern Russia and North America (Canada, United States and Mexico)

Eclipse path:

The October 24th eclipse is Member 9 of 70 of saros 153.

The eclipse will start from eastern Russia at 22:37:33 KMT and will continue its path, crossing the Canada, United States and Mexico, at 02:51:40 KMT. The maximum eclipse will occur at 00:44:31 KMT in the Northern Canada with a magnitude of 0.8114.

About the map of the eclipse path:

The area determined by a pink line on the left side of the map, shows the area where the eclipse will begin.

The area determined by a pink line on the right side of the map, shows the areas where the eclipse will end.

In the area determined by a pink line on the left side of the map, the solar eclipse will begin at the end of the night.

The area determined by a pink line, on the extreme left side of the map without blue line, designates the zone where the eclipse will be visible at sunrise. In this area, the eclipse will begin from the mid eclipse.

The area determined by a pink line on the left side of the map with blue lines, designates the mid eclipse and the phases of the eclipse after sunrise.

In the area determined by a pink line on the right side of the map, the night will begin before the end of the eclipse, so, the end phases of the eclipse will not be observed.

The area determined by a pink line on the extreme right side of the map with blue lines, designates the area of the mid eclipse and the phases after it, that will happen before sunset.

The area determined by a pink line on the right side of the map with blue lines, designates the mid eclipse and the phases after it, which will happen after sunset. In this area, it will be only in the late afternoon, before sunset, that the beginning of the eclipse will be visible. In this area, nor mid eclipse nor the end of the eclipse will not be observed.

Outside of this zone, in areas determined by blue lines, all the phases of the eclipse will be observed.

Perform signs prayer

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Month of Šafar

Following of **the mourning for Ēmām Ĥosayn** عليه السلام
and days of **grief and captivity of the House Hold of the Prophet** صلى الله عليه وآله
Šalla l-lāho ėalayka yā mawlā yā abā Moĥammad al-Ĥassan al-Moĵtabā
The seventh day of the month of Šafar
the martyrdom of Ĥadrat Ēmām Ĥasan Moĵtabā عليه السلام

View of the Sanctuary of the martyrs of Šeffin battle

The eighteenth day of Šafar is the commemoration of the martyrs of the Šeffin battle. Ĥadrat Mawlā himself made the funeral prayer and buried them himself (Ēmār, Oweys, ĵazīmeĥ, Abol Heyĉam and ...). This place is also the qadamgah and mošallā of Ĥadrat Mawlā, Ĥadrat Ēmām Ĥasan Moĵtabā and Ĥadrat Ēmām Ĥosayn. The importance of this place is so remarkable that it is worthy recommended to go there for ziyārat and spending a few days near the martyrs. Allāh grants this success to all believers.

A shrine has been built in Ar-Raqqa in Syria. This shrine is the result the efforts of Ayatollāh Fehrī. But recently it has been destroyed by the Nāsebīs

To get more details about those topics refer to the divin calendar of the month of Šafar in welāyat and barāāt times and Ĥayāt-aēlā Media in website of Ĥayāt-aēlā Foundation:

The gatherings of acquisition of knowledge, manifestation of disavowal (barāāat) and declaration of allegiance (welāyat).

Date	Schedule of the assemblies
The 18th day of Šafar	Martyrdom of Oways al-Qaranī alongside Mawlā (Commemoration of the Martyrs of Šeffayn)
The 20th day of Šafar	Arbaēn Ĥosaynī (concentrate on the subjects of knowledge and perform the ziyārat)

Yā Rasōlo-llāh, Yā ʿeśmato-llāh

The early days of the month of Rabiʿ al-awwal
the days of mourning for
Moḥammadi, Moḥseni and ʿĀskari ﷺ

صلى الله عليك يا رسول الله صلى الله عليكم يا أهل بيت النبوة

Šalla-llāho ʿalayka yā Rasōlo-llāh
šalla-llāho ʿalaykom yā Ahle bayte nobowwat

To get more details about this subject refer to the divin calendar of the month of Rabiʿ al-awwal in the *welāyat and barāʿat times* web site of *Ĥayāt- aēlā* Foundation:
www.aelaa.net/Fa/viewforum.php?f=168

یا مولاتی یا فاطمة الزهراء اعیشینی

Yā Mawlāti Yā Fātēmah Zahrā Aḡiçini

View of Rawdato-Nnabi and the main door of the house of ḥazrat Mawlā and Fātēmah through which Gabriel didn't enter without permission. When ḥazrat Moḥammad wanted to enter in this house, he laid his two hands on the both sides of the door and with a loud voice so that the people of the mosque hear, he recited the verse of the holy Qoran about the virtues of the Ahlol-Bayt and said salam to them and if he didn't hear answer, he turned and went away. This same door has been broken and burned and three people were done martyrs. The Muslims (with the exception of a few persons) watch this drama without saying anything. (In the left side of the picture; the door of the houde of Fātēmah. To hide it, the Wahhabis have put some shelves on doorstep and they have eliminated the inscription that was above the door).

Weekdays	Rabi' al-awwal 1436	Capricorn	Dey 1393	Kânôn-Awwal	December 2014	The public astronomical necessities and the special divine calendar

The total and partial Solar eclipse 29th of Ĵomādā al-ōlā 1436

Date of the eclipse: According Mean Time KMT, Kaēbah – Makkah.

Friday 29th Ĵomādā al-ōlā 1436= 30th Pisces = 29th Esfand 1393=20th Mars 2015

Location: Europe, North of Africa, North of Hejaz, North of Iran, Russia and Mongolia.

Eclipse path:

The Mars 20th eclipse is Member 61 of 71 of saros 120.

The eclipse will start in Atlantic Ocean in Eastern of Africa at 10:40:51 KMT and will continue its path, crossing the North of Africa, Europe, North of Hijaz, North of Iran to Russia and North of China and will end at 14:50:13 KMT.

The maximum eclipse will occur at 12:45:39 KMT in the ocean in southeastern of Iceland with a magnitude of 1.0446.

About the map of the eclipse path:

The area determined by a pink line on the left side of the map, shows the area where the eclipse will begin.

The area determined by a pink line on the right side of the map, shows the areas where the eclipse will end.

In the area determined by a pink line on the left side of the map, the solar eclipse will begin at the end of the night.

The area determined by a pink line, on the extreme left side of the map without blue line, designates the zone where the eclipse will be visible at sunrise. In this area, the eclipse will begin from the mid eclipse.

The area determined by a pink line on the left side of the map with blue lines, designates the mid eclipse and the phases of the eclipse after sunrise.

In the area determined by a pink line on the right side of the map, the night will begin before the end of the eclipse, so, the end phases of the eclipse will not be observed.

The area determined by a pink line on the extreme right side of the map with blue lines, designates the area of the mid eclipse and the phases after it, that will happen before sunset.

The area determined by a pink line on the right side of the map with blue lines, designates the mid eclipse and the phases after it, which will happen after sunset.

In this area, it will be only in the late afternoon, before sunset, that the beginning of the eclipse will be visible. In this area, nor mid eclipse nor the end of the eclipse will not be observed.

Outside of this zone, in areas determined by blue lines, all the phases of the eclipse will be observed.

The deep blue area indicates the region where the eclipse will be total.

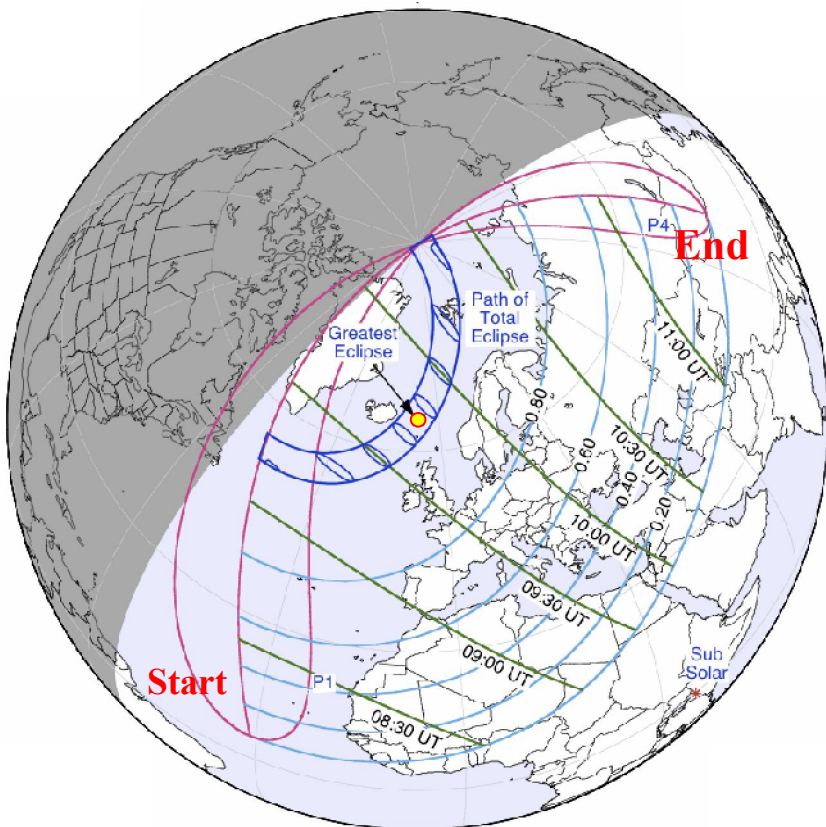

In the other areas it will be a partial eclipse that should be visible.

The deep blue path corresponds to an area of 462.6 km wide.

And the greatest duration of the total eclipse will be 2 minutes and 47 seconds.

Visibility of the eclipse in Iran:

In the northern half of Iran (Tabriz, Orumiyeh, Hamedân, Kermânshâ, Teherân, Sâri, Semnân, Bojnurd), a partial eclipse will be visible.

Perform signs prayer

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Characteristics of Solar Eclipse in the eight Heavens (in local time: LMT)

The eight Heavens	Beginning of eclipse	Sun's altitude	Maximum eclipse	Sun's altitude	Sun's azimuth	End of Eclipse	Sun's altitude	Magnitude	Maximum eclipse
Mecca Mekkah Mokarramah	---	---	---	---	---	---	---	---	---
Medine Madinah Munawwarah	---	---	---	---	---	---	---	---	---

The gatherings of acquisition of knowledge, manifestation
of disavowal (barāāt) and declaration of allegiance (welāyat).

The first day of Jomādāal-okrā	Get acquainted and be ready for the month of Jomādāal-okrā
The 2th day of Jomādāal-okrā	The death of the second ambassador of the Nāhiyyah Moqaddasah in Iraq (knowledge about the rank of the ambassadors of the Nāhiyyah)
The third day of Jomādāal-okrā	Martyrdom of Ĥadrat Fātēmah Zahrā ﷺ (mention of his immense rank and commemoration of the dramas suffered)

Penumbral, Partial and Total Eclipse of the Moon: 14th Jomādā al-oḵrā 1436

Date of the eclipse:

Saturday 14th Jomādā al-oḵrā 1436=15th Farwardin=15th Aries 1394= 4th April 2015

Location :

This eclipse will be visible in North and South America, Australia, Eastern Asia to Afghanistan and Pakistan and Eastern outskirts of Iran.

In those areas the signs prayer is obligatory.

. Saros Series 132 This is the 30th eclipse of

Umbral magnitude: 1.0008

Penumbral magnitude: 2.0792

The legend of the codes of diagram:

P1: first point of exterior contact times with the penumbra

P2: The penumbra covers two-thirds of the moon's surface=

the beginning of the penumbral eclipse

U1: first point of external point of contact with the shadow=

the beginning of the partial eclipse

U2: the beginning of the total eclipse

U3: the end of the total eclipse

U4: the end of the partial eclipse

P3: the last point where

penumbra covers two-thirds of the moon's surface= the end of the penumbral eclipse

P4: last point of exterior contact times of the Moon's penumbral shadow.

The hours of the penumbral, total and partial eclipse:

In the Šariĕah, the criterion which determines the obligation of the signs prayer is the observation with naked eye of the eclipse from the Earth's surface. The penumbral eclipse of the Moon becomes noticeable when penumbral shadow of the Earth cast onto the two-thirds of the full Moon and dims its surface.

The eclipse will begin at 12:01 KMT (P1) but it's only around 12:51 KMT that Penumbra will cover the two-thirds of the Moon's face (P2) causing the moon to darken and appear to change color on the western half of the Moon.

At this moment, the signs prayer is obligatory. Before this, color change and darkening of the Moon are not perceptible.

The partial eclipse will begin at 13:16 KMT (U1) and will finish at 16:45 KMT (U4).

The total eclipse (U2) will begin at 14:58 KMT, middle eclipse will happen at 15:00 KMT and will end at 15:03 KMT (U3).

The total eclipse will reach its maximum at 10:47 KMT and until approximately 18:10 KMT, two-thirds of the moon are in darkness (P3).

After this point, the color change of the Moon will no longer be visible. So, according to the Šariĕah, it will be the end of the eclipse and the end of the obligation of signs prayer despite that, in fact, the eclipse, as an astronomical event, will continue until 17:59 KMT (P4).

The areas of visibility of the penumbral, total and partial eclipses:

In the following map; the grey-shaded areas are the zones where the penumbral eclipse will happen.

In the other areas, the eclipse will not be visible.

The center of the eclipse will happen in the middle of the Pacific Ocean.

About the areas of the penumbral lunar eclipse located between P1 and P4:

- 1) In Americas: the eclipse will occur at Moonset.
- 2) In Asia and Australia, the eclipse will occur at Moonrise.

Observation areas of all the phases of the penumbral, partial and total eclipses:

In grey-shaded areas located between P3, in Western America and P2, in Eastern Asia, all the phases of the eclipse will be observed after moonrise and the eclipse will end before moonset.

In those areas, the eclipse will be the longer.

In grey-shaded areas located between U1, in Asia and U4, in Western America, the partial eclipse will begin after moonrise and will end before moonset.

In those areas, the partial eclipse will be the longer.

In grey-shaded located between U3, in America and U2, in Asia, the total eclipse will begin after moonrise and will end before moonset.

In this area the total eclipse will be the longer.

Observation areas of some phases of the penumbral, partial and total eclipse:

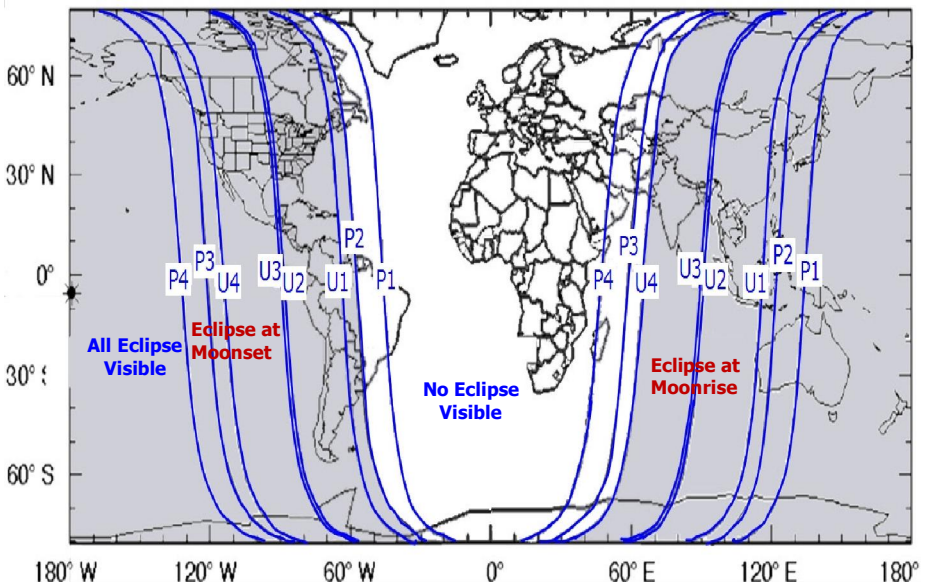

From Americas: In areas located between P3 and U4, the end of the penumbral eclipse of the Moon will happen after moonset, therefore the eclipse in those areas will not be visible. Similarly, for the end of the partial eclipse in the areas between U3 and U4. Between U2 and U3, for the total eclipse, between U1 and U2, for the partial eclipse, between U1 and P2 for penumbral eclipse, the observation of the eclipse will not be possible in areas where the eclipse will occur after moonset but in areas where the eclipse will coincide with Moonset, the eclipse will be visible.

In Asia to Australia:

In areas located between P3 and U4, the end of the penumbral eclipse will occur before moonrise, therefore the eclipse will not be visible. Similarly, in the areas between U3 and U4 for the end of the partial eclipse. Between U2 and U3, for the total eclipse, between U1 and U2, for the beginning of the partial eclipse and between U1 and P2, for the beginning of the penumbral eclipse, the observation of the eclipse will not be impossible given that the eclipse will occur after moonrise but areas where the eclipse will coincide with moonrise, the eclipse will be visible.

On the map, the white areas, between P1 and P2, in America and the areas between P4 and P3, in Asia, the penumbral eclipse only will occur but it will not be perceptible because the penumbra will cover less than two-thirds of the full Moon and the color change of the Moon will not perceptible.

In those areas, according to the criteria of the Šari'ah, there is no eclipse and no signs prayer.

Astrological chart of the mid eclipse

The mid eclipse will occur at the Moon's ascending node in the 15th degree of sidereal Virgo and tropical Libra.

Perform signs prayer

According to calculation, it is possible to determine the moment of the penumbral eclipse when the Moon will begin to change color, but in all cases, the criterion which determines the obligation of signs prayer is the observation; that is to say, from the beginning of the penumbral eclipse until the mid eclipse, it should be possible to see that the Moon has changed of color and became darker. In these case, the signs prayer is obligatory.

The beginning of the time of signs prayer is the beginning of the eclipse. It is not appropriate to delay the fulfillment of the prayer beyond the mid-eclipse. The time of signs prayer terminates with the end of the eclipse.

In the table below those times have been listed. The obligation of signs prayer is starting with the beginning of the eclipse. In the table, the hours of the beginning of the eclipse have been mentioned in the first column. As, it is not appropriate to delay the signs prayer after the middle of the eclipse (when the eclipse reaches its full development), the hours of the mid-eclipse have been mentioned in the second column. In this column, when no hour has been mentioned, it means that in this city, the eclipse will happen after the second half of the eclipse: in those areas, the signs prayer must be immediately performed, without delay in any case. The hours of the end of the eclipse have been listed in the last column: the hours mentioned in this column are also the hours of the end of the signs prayer.

Eclipse Partial duration : 3 hours and 24 minutes

Eclipse total duration: 5 minutes

Penumbral, Partial and Total lunar eclipse duration: 4 hours and 18 minutes
